This most remarkable and beautiful flower is universally acknowledged to be the best "Pink" that has been seen up to date; it came from collected seed from *Rose of Tralee*, no definite cross was made. A faultless flower measuring 4½ inches across; the pure white perianth segments are very broad shovel pointed and beautifully flat, of lovely smooth texture. The large cup is distinct soft salmon pink; beautifully flanged and rolled at the mouth. Like almost all pinks this flower requires two or three days to develop its proper colour, as on first opening there is a very distinct yellow tone in the cup. Shown in my winning Engleheart Cup exhibits for the past five years. A certain winner in Single Bloom Classes. Fine robust plant. Coloured illustration on application. (See illustration on front cover.) **£40** each.
