Dear Customers and Friends,

This is the 10th year Robin and I have produced a Catalogue, although Jacksons have been raising and exhibiting seedlings for more than sixty years.

We have had another rewarding year, in the Seedling Beds and on the Show benches.

Jackson's Daffodils won thirteen Class Championships at Launceston and Hobart, the only two shows at which we normally exhibit. Even more pleasing is that six of the Class Champions were 1987 seedlings flowering for the very first time.

Once again several varieties have been withdrawn from this catalogue. Most will be back in next year - we are trying to increase our stock numbers so that we can lift half the beds each year rather than all the beds every year.

Orders must be received no later than February as we aim to have the bulbs replanted by March.

We do not keep large stocks of any cultivar and so it is necessary to order early to avoid disappointment. Please mark on the Order Form if you do not require substitutes. A list of any second choices will assist us. It is our policy to substitute with more than equal value of those requested.

Prices are quoted in Australian Dollars and Postage must be added to each Order. Overseas Orders are posted S.A.L. unless Air Mail is requested. 10 bulbs weigh approximately 800-900 grams.

Payment may be made by personal cheque, money order, bank draft, etc. We have no problem cashing personal cheques in overseas currencies. Exchange rates will be calculated at the bank rate on the day of deposit and any overpayment because of exchange rate or excess postage will be adjusted by including extra bulbs.

We recommend our Novice Collection to any customer beginning to exhibit. The Novice Collection is ten different cultivars, from several divisions, that are easy to grow and are consistent good performers on the show bench, and are at less than half the listed price. Only one Novice Collection ever to a customer.

We enjoy visitors to our garden at Surges Bay, a look at them growing is worth a thousand words of description. Let's hope next year's open day has better weather than this year's pouring rain.

Looking forward to seeing you all at "Daffodils 88 Down Under" next September.

David and Robin Jackson

NEW RELEASES 1988

- COMPUTE** - 1-2 (36/79) **Lenz x Helsal.** A large early bi-colour which has a very large long trumpet of bright lemon yellow that does not stain the perianth. The perianth is triangular and very smooth, opens a little muddy but whitens to a pure white. A very consistent smooth flower carried well on a tall stem.
 Champion Launceston 1986 \$25.00
- HUSSY** - 1-2 (36/75) **Bruce x Jacobar.** A bright bi-colour with a bold trumpet of deep golden yellow that stands well on a tall stem. An early flower that consistently produces excellent show blooms.
 \$32.00
- NUKE** - 1. (72/77) **Verran x 163/69.**
 1w-p An early flowering pale pink trumpet that measures Division One easily. A triangular perianth with petals that are wide at the base.
 \$11.50
- ACCRUAL** - 1. (164/79) **Warcom x Akala.** A smooth and consistent flower of lemon-yellow with the trumpet slightly darker than the perianth. The petals are smooth and oval with a more than reasonable overlap. The cap is slightly waisted, flanged and is only a little shorter than the petals. \$18.00
- AUSPICIOUS** - 2. (214/77) **Gunsynd x Brett.** The first orange flushed perianth we have described on releasing as an Orange Perianth. A large flower on a tall stem with a long lasting pronounced flushed perianth. The flowers form is good with broad shovel shaped petals, almost touching at their base, to form a slightly cupped perianth. The cup is more than half length, slightly expanding and bright orange to its base. \$20.00
- ODULATION** - 3. (282/78) **166/73 x Iatros.** A later flowering with a lemon perianth of broad shovel shaped petals that touch at the back and almost touch at the front. The goblet shaped cup is more orange than red. The flower is very smooth and stands well on a tall stem. Grand Champion Hobart 1984 \$17.00
- RUNAWAY** - 3. (285/79) **Tia x Kopi.** A bright attractive flower on a tall stem with a lemon perianth of good substance. The red goblet shaped cup is very bright with good contrast but can burn in the hot sun \$25.00
- HASSLE** - 3. (269/80) **Gideon x Jolly Roger.** A hard flower to describe as the cup opens yellow but soon changes to an apricot colour. R.H.S. colour chart orange 21B. The petals are smooth, shove-shaped with good overlap. The cup is bell shaped with a ruffled rim. A different and attractive flower that has been in our show team in Launceston \$ 9.00
- BARNSTORM** - 4 (59/77) **Waikato x Glendermott.** A large strong definite division two with broad shovel shaped petals forming a flat perianth. The three quarter length cup is slightly creamier than the perianth, is almost straight with a slight flair \$14.50

New Releases 1988 - continued:-

ALIMONY - 3 (272/78) 172/73 x Sea Dream. A flower similar to parents that has well rounded petals with a good overlap that continue to grow after opening. The small frilled cup has a green eye and is the same colour as the perianth. Stands well on a tall stem. **\$20.00**

HUON CHIEF - 4. (305/78) Blodfier x Tavelle. A very full double with bright lemon petaloids that stands well on a medium length strong stem. A very consistent flow that won its class in Launceston 1987

... .. **\$22.50**

YELLOW TRUMPETS

ALWON - 2 (45/73). Otewa x 4/64. A golden yellow flower of good substance that is very consistent. The perianth is the same length as the flared and frilled trumpet. Stands well on a strong stem. **\$8.00**

BARADOC - 1.(17/71). An early trumpet of outstanding smoothness in its well proportioned overlapping perianth. A truly golden yellow in colour with an attractive serrated trumpet. Exceptionally good carriage with stems 18 inches long. A very consistent flower, every bloom a show bloom with commanding appearance ... **\$12.00**

BARFLY - 3. (97/64). Otewa x Comal. A slightly smaller mid season trumpet that is consistent. The perianth is flat and smooth and forms two triangles. The trumpet is straight with a slightly frilled edge. It stands extremely well and is a uniform colour. Champion Canberra 1977, 1983 ... **\$10.00**

BEGA - 2. (96/76). Otewa x Ristin. A definite trumpet with a rounded perianth with both sets of petals almost touching. The trumpet is almost straight with a slight roll and frill; it is in proportion to the rest of the flower. Stands well. ... **\$12.00**

BOZLEY - 1. (14/73). Otewa x Ristin. Good golden yellow flower with excellent carriage. Wide major petals and nicely fluted trumpet of good proportion. Bold appearance and consistent blooms. ... **\$12.00**

HERMIA - 2 (20/61). Warbin 35/65 (65/57) x Haka. An outstanding all yellow trumpet of good colour, form, smoothness and quality. It is a good golden yellow, the trumpet perhaps slightly a deeper colour than the perianth. It has a short neck, the flower carried at right angles to the perianth. The trumpet is nicely serrated and rolled. ... **\$8.00**

HITCH-HIKER - 1 (25/79) Ristin x Otewa. A good even smooth flower of deep golden yellow. The petals are shovel shaped and have great substance. The trumpet is slightly tapered and has a small frill. Stands very well on a tall strong stem. Champion Hobart 1986

... .. **\$20.00**

- JEDDA - 3. (67/73). Ristin x Otewa.** A smooth golden flower of very good carriage. Rather like its parent Ristin but the minor petals are broader at the base. It is a very consistent flower, with very flat perianth and lovely serrated rim to the trumpet. A mid season variety useful for the show bench. Champion Orange 81 ... **\$6.00**
- MACCA - 169/71.** Pedigree unknown. This is a borderline trumpet but is very useful as it flowers after most yellow trumpets are finished. It is a lovely golden yellow, the perianth is of good quality, smooth and shovel shaped. The trumpet is slightly rolled and nicely serrated. Very consistent with good carriage. ... **\$8.00**
- MADRUGA - - 1 (22/71). Ristin x 128/65.** This early flowering trumpet has all the good qualities of its parent Ristin, but has more substance in its perianth which is smooth and shovel shaped. The whole flower is a rich golden yellow, the trumpet perhaps slightly deeper in colour than the perianth and is nicely ruffled at the rim. It has very good carriage and all blooms are show blooms.
Aus. Cup Hobart 1976 ... **\$8.00**
- PRADO - 2 (35/72). 128/65 x Riston.** A nice bright yellow trumpet with broad shovel shaped major petals that touch at the back of the flower. The minor petals are not quite as broad. The trumpet is nicely rolled with a green eye. It has good carriage, smoothness and texture, but is inclined to hood. Champion Canberra 1981 ... **\$6.00**
- RICOM - 2 (25/73). Comal x Ristin.** A very smooth even yellow trumpet. The major petals meet and the minor almost meet. All are smooth and broad. The trumpet is just a slightly deeper yellow, well formed with a serrated edge. A well balanced bloom with good carriage... **\$10.00**
- TIERCEL - 3 (64/73). Pedigree unknown.** A very consistent flower of golden yellow in both perianth and trumpet. The perianth is very smooth with shovel shaped minor petals. The cup is neatly serrated at the rim and is well balanced to the perianth. It has excellent stance and is slightly smaller than most of our trumpets but deserves a place as it flowers later than most yellow trumpets. ... **\$6.00**
- TYROD - 3. (51/72) Otewax x Warbin.** A bright yellow flower with broad petals that overlap at the back and of good thick substance. The trumpet is almost straight with a slight frill and is the same colour as the perianth. Stands well on a shortish stem. Premier Spring World '84
... **\$12.00**
- WARCOM - 1 (24/72). Comal x Warbin.** A well defined early rich golden trumpet. The perianth has excellent texture and quality with very smooth shovel shaped petals. The trumpet is well proportioned with a slightly flanged serrated rim with a green eye. The flower has excellent carriage. ... **\$8.00**

BI-COLOUR TRUMPETS
(White Perianth Yellow Trumpets)

BEWDY - 2.3. (179/78) Cyros x Helsal. A very consistent show flower that has been in our show teams for several years. Very good substance, texture and colour. The perianth is smooth and flat, with wide shovel shaped petals. The trumpet is narrow, slightly flared and frilled of golden colour with a good cup-off not staining the perianth
 \$25.00

WHITE TRUMPETS

TRANQUIL \$3.00

LARGE CUPS
(All Yellow)

ABONA - 3. (50/71). Goldscript x Berrima. The smooth perianth is a golden yellow of good substance and shovel shaped petals. The cup is a deep golden yellow slightly deeper in colour than the perianth. It is a strong grower with excellent posture. Very consistent, every bloom a show bloom. \$6.00

GLIDER - 3. (42/72). Ristin x 128/65. A rich deeper yellow flower of good substance and smoothness with the minor petals not quite as rounded as the major. The trumpet is well balanced, slightly flanged and the same shade as the perianth. It has excellent carriage. ... \$8.00

GOOLA - 3. (56/70). 101/65 x 216/65. Very like Camelot in form but a much deeper golden yellow and much soother substance. Very rigorous grower. \$4.00

HONDOMAN - 1. (9/72). Ristin x 128/65. A golden yellow perianth of triangular shape, smooth and of good substance. The cup is a slightly deeper colour and flared at the rim. Good stance on a thick strong stem \$10.00

MAGILL - 2. (11/74) Comal x 107/66. A buttercup yellow flower. The minor petals are wide at the base and the majors almost touch. Cup is nicely serrated at the rim. Flower has good substance. \$10.00

PROSKA - 3. (88/70). Goldscript x Vixi. This flower has a very smooth flat perianth, a pleasing shade of yellow, but paler than the nicely serrated cup. Beautiful substance in the perianth. It has a short, stiff neck and bold appearance. Good doer and every bloom good. Reserve Champion Orange 1979. Best bloom Spring World '84... \$10.00

SCIPIO - 3. (137/73). Camelot x Manuella. A good addition to its class which is smooth even and consistent. The minor petals are smaller than the major and the plain cup is slightly darker than the perianth. It stands well on a strong stem with every bloom identical. ... \$10.00

LARGE CUPS
(Yellow perianth, red cups)

- ADIOS - 2. (101/72). 65/66 x Dimity.** A large attractive flower with broad deep yellow petals with a faint flush of red in them. The smallest cup is a bright orange red, slightly lighter in colour at the throat. The cup is at right angles to the perianth, but will burn in strong direct sunlight. Very good stance and a good addition to its class.
Class 2Y-RRR. \$10.00
- COLORFUL - 2.3. (176/71). Dimity Seedling x Bilboa.** A very distinctive red yellow. Perianth is a deep golden yellow, flat, smooth and very nicely rounded and of good substance. Cup is solid red throughout, rather flat and slightly serrated at rim. A very well balanced flower with good carriage. Very, very consistent and seldom nicks. One of our best recommended. Class 2Y-RRR. Premier Nth Island N.Z. 1982
... .. \$15.00
- JUEL - 2. (72/69).** Bred from Tanais x 18/60, which was a Mars x Ceylon cross. It has the lovely rounded perianth of Mars with Ceylon colouring. The cup has a wide, nicely serrated rim ranging from red at the edge toning to orange at the base. The red seems to reflect onto the perianth. A well balanced flower with good carriage. Does not burn till old. Aus. Cup, Hobart 1974 \$10.00
- KASIA - 3. (113/65).** This flower was bred from two numbered seedlings of ours and was in the Tasmanian Cup team on its first flowering. The perianth is of bright red at the rim, shading down to deep orange at the base. The flower has good carriage on a tall strong stem. Reserve Grand Champion, Claremont, 1966, Bagdad 1968, Champion Launceston 1969, Canberra 1972, Hobart 1981, Premier Sth Island N.Z. 1982, 1983. \$10.00
- MATTARA - 1. (2/70).** Another Tanais x 18/60. A striking flower of good presentation. Smooth deep yellow well shaped perianth with a narrow serrated cup toning from reddish orange at the rim and slightly paler at the base. Does not burn. \$6.00
- RA - 3. (178/68). Bred from Dimity x Vulcan.** This is a very striking red and yellow 2A as it has inherited the rich deep yellow and bright red of Vulcan. The perianth has fine major and minor petals of good quality and strong substance. The fairly deep cup is bright red at the mouth shading down slightly to the base. The mouth is serrated. A very tall stem with excellent carriage. Launceston Cup 1973. Champion 2B Orange, N.S.W., 1977, 1980. Canberra, 1983. \$5.00
- RABID - 2. (158/73). Dimity x 65/66.** A well sized flower with a bright yellow perianth that is almost round. The petals are broad and shovel shaped. The orange-red cup is at a right angle to the perianth, the same colour throughout and resistant to burning. A most attractive flower that will have success on the show bench. Class 2Y-RRR. \$10.00

- SANSUI - 2 (Vulcan x Sunpride).** The perianth of this flower is a deep golden yellow of very good substance. The cup is yellow at the base gradually deepening to orange-red. The cup is slightly fluted and wider at the mouth than the base. A vigorous flower of excellent carriage and consistent. 2Y-YRR. \$6.00
- SVELTE - 3. (147/77). Blandfordia x Latros.** This flower has a smooth saucer shaped perianth of bright yellow with the petals touching and or almost touching. The acorn shaped cup is a bright orange to its base and does not run into the perianth. Stands well on a strong stem and is very consistent. 2Y-O. \$10.00
- TWICER - 3. (198/75). True Orbit x Yoone.** A large tall flower that is hard to classify as some blooms are a definite division two and others just as definite division three. Have classified it as division two, because of its size and appearance. The perianth is consistently smooth and similar to its parent Yoone. The acorn shaped cup is bright orange at its rim, toning to yellow at its base. 2Y-YOO \$15.00
- ZUFRA - 3 (213/67). Bred from a seedling 38/59 on to Vanity.** This is a most striking flower and just misses being an all yellow 2A because of a tinge of deep orange on the top rim. Apart from that the whole flower is a rich golden yellow of good substance and quality. It is carried on a tall stem and has a fine presentation. \$2.00
- Also available JANZ, BLANDFORDIA** \$4.00

LARGE CUPS
(White perianth, coloured cup)

- ANYTUS - 1. (15/64). Another Lod x Rowella seedling of good quality.** Smooth white perianth with large flat overlapping minor petals. The trumpet like cup is lemon and the colour does not run into the perianth. Inclined to hang its head. 2W-Y. \$6.00
- DORUS - 3. (159/66).** Yet another Arbar x Jo seedling of excellent quality. The perianth is pure white and of good quality and substance. The short expanded cup is serrated with some of the serrations slightly darker than the rest of the cup. The flower has a very strong short stiff neck giving it excellent presentation. Launceston Cup 1968-70, Canberra 1972, Champion 2B Canberra 1972, Bulman 1974, Tas. Cup 1974, Champion 2B Hobart 1974, 1977, Canberra 1982. \$10.00
- KOALA - 1. (41/70). 195/65. (Signal Light x Jo) x 83/64.** A very striking red and white perianth of good quality and texture. The cup is orange at base, gradually changing to a deep orangy red at edge. The cup is wide at the rim and beautifully serrated. Tas. Cup Hobart 1976... .. \$5.00
- TAXATION - 3. (100/74). Rockall x 229/67.** A bright attractive flower of medium size and good contrast. The outer petals are slightly larger than the inner, but both are smooth and have good substance. The cup is flared bright orange and just runs into the perianth. A striking consistent flower. 2W-O. \$ 7.00

- TOYA - 2 (144/70).** Arbar x Red April. Very striking reddish orange cup which does not burn. The cup is wide at the mouth and nicely serrated. It has a pure white flat perianth, the minor petals perhaps slightly narrow at the base, but does not detract from its beauty. Stems 24 inches tall. A striking spectacular flower. Very decorative, but also of show standard. **\$7.00**
- TRITON - 1. (10/69).** Bred from two 2C's, Killymoon x Filia. Perianth consists of broad pointed petals with very large overlapping minors of good quality and substance. The large trumpet like cup of lemon yellow is expanded and very serrated at the mouth. The whole flower is well balanced and it is consistent in producing all blooms of show standard. Good presentation and tall strong stem. Very free of increase. Champion 2B Hobart 1975. 2 W-Y. **\$6.00**
- ULTIMA - 2. (52/70).** (Arbar x 9/62). A most striking flower. The perianth is pure white of very good smooth texture. The minor petals are beautifully rounded and shovel shaped whilst the major petals overlap at the back. The cup is broad at the rim, attractively serrated of an orange-red colour which extends right to the base of the cup. Carriage is excellent and all blooms are consistently good. Highly recommended. One of the best of its class that we have raised. Champion Launceston 1982-83. Class 2W-RRR. ... **\$10.00**

**LARGE CUPS
(All White)**

- CENA - 2. (61/67).** Green Valley x Filia. A pure white flower with smooth well balanced perianth. The large cup is slightly expanded and serrated at the mouth with a green throat. Has excellent substance, a sort neck on a tall stem. Claremont and Tasmanian Cups 1969, Canberra 1972 **\$5.00**
- DELMONT - 3.4 (146/70). 52/64. (Empress of Ireland x Ammon) x Rashee.** The perianth is a chrySTALLINE white of very, very good substance. Minor petals are very broad and the major overlap at the back. It has a rolled, frilled cup not very serrated. Comes out cream on opening, but very quickly whitens. It has a greenish cream eye in the throat. Strong vigorous grower. All blooms consistently good. **\$12.00**
- IMMACULATE - 3. (167/71). 107/62 x 229/62.** The most perfect 2C we have bred. Perianth and cup are pure white on opening. The perianth is perhaps slightly companulate, but so beautifully rounded and broad in the petals that it has marvellous appeal. The cup has a green eye nicely serrated at the edge. Whole flower is beautifully balanced. Strong grower, short neck. All blooms show blooms. Champion Launceston 1980. **\$15.00**
- INGLE - 2.3. (225/75). Arctic Doric x Challa.** Has a nice rounded perianth with both sets of petals of equal size and shovel shaped. The cup is straight with a slight flare. Stands well. **\$12.00**

- KIALOA - 2. (29/74). 15/65 x Mercedes.** A borderline large cup with good substance, smoothness and form. A similar flower to Mercedes, but with better carriage. The cup opens creamish but whitens as it develops **\$10.00**
- LOOPHOLE - 3. (33/75). 200/68 x Saroya.** An early flower for this division that has the appearance of a trumpet but easily measures large cup. The perianth is of good shape and smooth. The cup is narrow slightly flared with just a touch of a frill. Champion Launceston 1984. **\$12.00**
- RHAPSODY - 2. (96/67). Filla x Green Valley.** This is a striking flower of chrySTALLINE whiteness and it has inherited the best qualities of both parents. The perianth has large overlapping petals of the best quality and strongest substance. The nicely balanced cup has a slightly flanged and serrated mouth and has an attractive green tinge in the base. The flower is carried on a strong stem with a short stiff neck. Tasmanian Cup Hobart 1972, Bulman Cup 1972, Tas. Cup 1974... **\$6.00**
- SHAMAN - 2-3 (239/79) Rhapsody x 159/70.** A strong flower with broad shovel shaped petals, with the back petals overlapping. The flower is posed well on a strong stem, it is even smooth consistent and has good substance. The cup is straight with a frilled flange. Champion Launceston 1986. **\$17.00**
- THISBE - 3. (118/70). Empress of Ireland x 12/62. (Snowfall x Jonningham).** Perianth pure white with broad shovel shaped minor petals, major petals very overlapped at back. Strong substance. Large cup is greenish yellow at base, not very serrated but slightly rolled at rim. Flower at right angles to stem. Vigorous. All blooms consistently good. Grand Champion Launceston 1980 **\$13.00**
- WHO'S WHO - 2-3 (240/74) Rhapsody x 159/70.** A vigorous flower with a glistening triangular perianth, the petals slightly pointed. The cup is straight with a flange and only a hint of a frill. It has a very green eye, is even, smooth and consistent. Stands well ... **\$20.00**

LARGE CUPS

(White perianth, pink cup)

- CRISIS - 2 (18/73) Veran x Solinus.** An early large pale pink flower which may be useful for early shows. It stands well and has a good perianth with the back petals touching **\$5.00**
- FORTE - 2.3 (58/78) Verran x Tim.** A slightly smaller flower of bright contrast and one of our deepest pink colouring. The petals are shovel shaped with the back petals touching. Champion Hobart 1985. **\$11.50**

OBSESSION - 3. (188/76). Another of the prolific Verran x Cathlin cross, and in my opinion the best. It may be slightly later and smaller than Vahu, but is more consistent in that it rarely nicks. It has a very rounded perianth with the major petals touching and the minor almost touching. The cup is a fairly deep pastel pink and is slightly serrated at its mouth. Multiplies well and is a very very consistent, with every bloom a show bloom. Grand Champion, Launceston 1981

... .. \$40.00

PINK - SILHOUETTE - 3. (200/69). This flower is bred from Verran x Egina and is the best late flowering pink in the garden. The perianth is snow white and of excellent quality, substance and smoothness. Unlike Verran the perianth is quite flat. The rich pink large cup broadens slightly towards the mouth which is very slightly rolled and nicely frilled. The flower is carried on a tall strong stem with a very short stiff neck that gives it excellent presentation. It is a very regular grower as each flower is of show standard. Grand Champion Whitmore Premier Pink N.Z. National 1977. Champion Orange, 1980

... .. \$25.00

SHY LADY - 3 (190/75) Verran x Iridescent. On opening it is 2w-yyp but soon fades to 2w-wwp. The petals are beautifully shovel shaped which touch at the back and almost in the front. The cup is tapered with a narrow rim of pink and has a green eye. \$15.00

VAHU - 1. (30/70). Verran x Cathlin. An early pink of outstanding quality. The perianth has excellent substance, but is inclined to catch on the cup and nick. Stands tall on strong stem with good carriage and is a proven parent. Has won too many show awards to list. Premier Spring World '84. Few to go

... .. \$25.00

VALDIS - 1. (8/70). C.E. Radcliffe x Remis. This is a borderline trumpet and has all the characteristics of one, so should be useful for breeding. The cup is a very deep pink widening at the rim which is very serrated and rolled. The white perianth has broad shovel shaped petals and the flower has a bold appearance which should add to its show bench form

... .. \$5.00

VALUE - 3. (189/70). Verran x Kuprina. Nice flat white perianth of good substance. Minor petals are wide and shovel shaped, majors overlap at the back. The cup is green at base with a deep pink glow. It has a slightly rolled very serrated frill which does not seem to nick the perianth. A deeper pink than its parent Verran. Strong grower. Very, very consistent

... .. \$10.00

VAMP - 3. (163/73). Verran x 176/66. A Verran seedling much like its parent in colour, shape, texture and balance. It stands well on a good strong stem. The trumpet is well balanced with a slightly flared rim and a green eye. It is almost a trumpet with a cup measuring 41 mm and the perianth just over 41 mm. Champion Orange 1981

... .. \$10.00

- VANDYKE - 3. (105/72). 64/63. (Ross x Philo) x 22/58. (A Bisdee sdg x Illinga)**
 This flower has a pure white chrystalline perianth with very broad rounded minor petals, the major petals overlapping at the back. The large trumpet shaped cup is widely flanged at the rim and attractively serrated. The botom of the cup is narrower than the rim which adds to the good balance of the flower. It has a strong neck with good carriage. Very consistent. \$12.00
- VARLET - 3. (162/73). (Verran x 176/66).** Another Verran seedling much like its parent with the petals perhaps marginally not quite as broad, but of even smoother substance. The corona is similar to Verran, slightly flared of delicate pink with a green eye. It has excellent carriage on a strong stem. Withdrawn for increase \$15.00
- VENTA - 1. (154/70) Verran x Cathlin.** A flat white perianth with broad shovel shaped minor petals. The major petals overlap at the back. The cup almost measures trumpet. Very serrated and nicely rolled at the rim. Colour is a pleasing deeper pink at the rim verging down to a pink butt at the base. Short neck, very good carriage, strong grower.
 Champion Westbury 1978 \$10.00
- VITAL - 3. (191/71). Verran x Cathlin.** A borderline trumpet. Very broad minor petals. Very large frilled cup, but perianth is so large and round that it does not dwarf cup. Cup has a yellow ring in centre, but outside is a deep pink. Rim of cup is nicely serrated with a wide roll \$7.00
- VIVACIOUS - 2. (159/71). C.E. Radcliffe x Remis.** Pure white perianth of good smooth substance with broad minor petals and overlapping at the back. The cup is green at the base then a delicate shade of pink, slightly deeper in colour at the rim which is nicely rolled and serrated. It has very good carriage and is a most consistent flower
 \$10.00
- VOLTAGE - 1. (22/74). 22/74 x Verran.** One of our earliest pinks which is rather similar to its parent Verran, but a deeper pink in the cup. The cup is slightly rolled and nicely serrated. Withdrawn for increase. \$15.00
- Also available VECTIS** \$5.00

Class 3A - SMALL CUPS

(Coloured perianth, coloured cup)

- AZZURO - (233/78) Brett x 195/67.** The very rounded slightly cupped perianth is of golden yellow with the back petals touching and the front petals almost touching. The small goblet shaped cup is deep orange-red. This would be a very expensive variety but for its need to be shaded. \$13.50
- NO-WAY - 2. (123/77). Riis x Kopi.** A very round smooth flower that is early for this division. The major petals are rounded and almost touching, the minor are rounded and slightly smaller. The cup is straight and a deep orange to its base. Has a good stem and stance. Champion Launceston 1983, 1984. 3 Y-O. \$20.00

Class 3B - SMALL CUPS

(White perianth, coloured cup)

- CHALLENGE - 1.2. (151/70). 239/65 x Signal Light.** The best of its class I have seen. It has a very rounded pure white flat perianth of smooth good substance. Cup is flattish, very serrated and bright red throughout. All blooms show blooms. Has appearance of class two, but measures Cup 15 mm per 48 mm. Sunproof. Champion 3B Launceston 1975, 1978, 1980. International Cup N.Z. 1976. Class 3W-RRR. Canberra 1979 \$15.00
- CHASTA - 2. (139/69). 79/60 x Arbar.** Pure white, smooth flat perianth. The small white cup has a pinkish red, very serrated narrow rim and a green throat. It has a very good carriage and a tall stem. Champion Small Cup Hobart 1977. \$3.00
- EPONA - 3. (66/72). 79/65 x 87/63.** White perianth of good substance with spectacular flat deep red cup right from the rim to the base to the flower. Nicely serrated and frilled. Good carriage and appearance, strong grower. 3W-O \$20.00
- HARTZ - 4. (243/75). City Lights x 227/67.** A striking flower of great contrast with a bright orange cup against a pure white perianth. The perianth is triangular and of good solid substance. Stands well on a long stem 3W-O. \$20.00

- ICON - 2. (117/70). Arbar x 67/79. (Jo x Capella).**
 Cup 10 mm per 42 mm. Perianth pure white of good substance with overlapping major and minor petals. A well rounded flower. Cup is green at base then orange yellow with a red rim. Rather flat in shape and nicely frilled. Carriage and presentation good and strong grower. Class 3W-YYR. Champion Canberra 1982 ... **\$5.00**
- MEDIA - 3. (112/67). Arbar x Jo.** Pure white perianth of good quality and substance. The expanded cup is deep orange at the base, shading out to a $\frac{1}{4}$ inch rim of red. It is nicely serrated and well balanced. The flower has good presentation and is carried on a stall stem. Grand Champion Canberra 1977 ... **\$7.00**
- REKUNA - 3. (128/69). 208/65 x Arbar.** Another Arbar seedling. The white perianth has large minor broad overlapping petals. A very frilled small cup, red not predominant. Neat red frill on the yellow cup and green throat. Very strong tall stem with flower at right angles to the stem. Excellent presentation and consistent. 3W-YYR ... **\$6.00**
- TARDUS - 4. (226/75). 186/70 x Verona.** A nice division three white yellow, not predominant which is unfortunately too late for Tasmanian shows. It has a beautifully rounded, smooth perianth of good substance. The small expanding cup has a rim of yellow on its outer edge. Would be priced much higher if it flowered earlier. 3W-WWY. ... **\$8.00**
- TIMELY - 3. (177/70). Arbar x 168/61.** Very pure sparkling white perianth of very solid substance, cup 12 mm per 44 mm. the cup is greenish yellow at the base verging into yellow then orange red at the rim. The flat shaped cup is prettily serrated. A prolific strong grower. Short neck. Carriage improves on opening and it has a good presentation. 3W-YYR. ... **\$5.00**
- VODA - 2. (62/64). Arbar x Kin.** White perianth with good overlapping segments. Bright orange-red cup with a darker rim. The flower has good substance and is carried on a tall stem. ... **\$7.00**

**Class 3W-W SMALL CUPS
 (White perianth and corona)**

- BEHOLD - 3. (111/74). Romney x Placid.** A hard flower to classify as it opens with a lemon coloured cup that soon fades to white. The outer petals are almost round, the inner shovel shaped, of good substance and glistening white. The cup is flared and frilled. Stands well on the longest stem in our garden. Champion W.A.D.S., 1983 ... **\$10.00**

CLASS 4 - DOUBLES

DOUBLE UN-NAMED - 3. (78/64) x Mrs. W. Copeland. Double row of white petals in perianth. Heavy double cream centre interspread with cream petaloids of pleasing appearance. **\$3.00**

PRIMROSE CREAM - 1. A large cream double of a delicate lemon centre interspread with cream petaloids. **\$6.00**

TWILLO - 2. (28/78). Mt. Somers. A very full double that is hard to describe as the petaloids fade from a pale yellow to an almost white. The stem is of reasonable length but inclined to curve with the weight of the wet flower head **\$9.00**

195/75 - 3. A semi-double that has a white perianth, a trumpet shaped corona jammed full of yellow and white petaloids. **\$5.00**

120/74 - 2. An early, full, cream double. **\$6.00**
