TERMS OF BUSINESS

All prices quoted are in Australian dollars and may be paid with personal cheques, money orders or Bank Drafts at the exchange rate applicable on our day of banking. Post money with orders please unless by prior arrangement.

Substitute bulbs are only included on the rare occasion that the ordered bulb is not available. The substitute bulb will be of a similar type and of at least comparable standard and price. An indication of any preferred substitute, or if you don't wish to substitute, will help us both.

Any over payment, due to exchange or postage difference, will be adjusted by the inclusion of extra bulbs.

Receipt of orders will not be acknowledged unless specifically requested.

Invoices will be included in with the bulbs unless you request otherwise.

The parcel should be opened on arrival and bulbs planted as soon as possible, into cool ground, or the bulbs should be stored in a cool, well ventilated location.

Jackson's Daffodils guarantee their bulbs to be sound and healthy.

We will readily replace any lost in the year that they are received.

Other catalogues may list our varieties at prices lower than ours.
We will more than meet their prices - we will charge 10 per cent less.

PACKAGING AND POSTAGE WITHIN AUSTRALIA – SURFACE MAIL

Tasmania \$5.00 for any quantity

A GARDEN AND NOVELTY CATALOGUE IS AVAILABLE - COST: 2X45c STAMPS

Dear Friends and Valued Customers

So much for getting our catalogue out before flowering season, should have known we could not keep it up. So now we have two show seasons to talk about.

Spring 1996 was a great time, with the highlights being the overseas visitors and attending the New Zealand convention. A special thanks to David Adams, his family, and all the other Kiwis who gave us such a wonderful time.

In 1996 shows, Jackson-bred cultivars won the grand champion at each of the three shows we attend, as well as thirteen divisional awards. In New Zealand we got two up on the premiers table but were beaten in the International by Koanga's size and bloom. We will just have to try harder, and grow them a lot better. The grand champion was a magnificent flower bred from Immaculate, a very similar flower, but better.

In 1997 we again fared well with Jackson-bred cultivars again fluking the grand champions and even more divisional champions. By Jackson-bred cultivars I do not mean they were all grown and shown by us, it is even more satisfying when they do well for other growers. The highlight of 1997 was son Timothy and his wife Helen's visit to Leongatha which they really enjoyed, and got them all fired up, by staging the winning Australian Championship class, as well as grand-champion. Jackson-bred cultivars also won seven of the division awards.

We hope to be able to attend the American Daffodil Society's annual convention on our way to the British world convention April 1998. Why don't you join us all there? You will enjoy the convention and all the fun. Details on page 15.

Best wishes to you all,

David and Robin

NEW RELEASES 1998

The flower name is first followed by a number which indicates its time of flowering here. No.1 for flowering in August; No.2 for the first week in September; No.3 is for the second week; No.4 for the third week; No.5 for the last week and No.6 for those few flowering in October. The variety's seedling number is in brackets with the last number being the year of its first flowering from seed. Then the variety's parentage followed by stem length and the flower's diameter both measured in millimetres. The number in the description is as close as we can get using the International Daffodil Registrars descriptive terms.

Razda

RAZDAZ - 2 - 3 (104/87), *Hussy x Wilbur*, Stem 400, Diam 111, 1w-y.

A consistently good, strongly contrasting bi-colour that stands above the foliage. The ovate perianth segments are thick and smooth. The bright yellow 9A funnel shaped trumpet is flared and frilled. Short neck with good stance.

\$30

ARAFURA - 3 (120/87), *unknown*, Stem 530, Diam 107, 2y-o.

A large flower with consistently smooth perianth of broadly ovate petals. The half length funnel shaped cup is a bright orange 25a, contrasting with the lemon 7b petals. Stands well on a very tall stem. (Photo page 4)

\$33

JOLLY GOOD - 2 (32/84), *Careyem x 26/75*, Stem 500, Diam 105, 2y-o.

An early flowering, smooth and consistent flower of bright attractive colour. The half length, funnel shaped cup has bright orange 28a on its rim, fading to yellow-orange at its base. The double triangular perianth has thick substance of golden yellow 9a.

Champion, Leongatha 1997. (Photo page 4)

\$33

CARTEL - 1 - 2 (77/87), *Toya x Dorus*, Stem 480, Diam 95, 2w-yo.

A smaller flower with a wide, flat disc corona yellow 15b with an orange 25a rim that lies back flat to cover half the perianth. Stands tall with a good neck and poise for an early, attractive, consistently good show flower. *Champion, Hobart 1997.* (Photo page 4)

\$15

CONTENDER - 1 - 2 (185/81), *Hartz x 183/70*, Stem 500, Diam 110, 2w-o.

Opens with a cream perianth and the cup burns, but shaded or picked and held, this is an excellent show flower. Features a smooth, thick, white perianth and a striking red 28a bowl cup that can measure 3, but more often division 2. *Champion, Launceston 1996.* (Photo page 4)

\$28

NOWRA - 3 - 3 (130/87), *Hartz x Potent*, Stem 450, Diam 114, 2w-r.

A bright flower with red 30b bowl cup, contrasting with the glistening pure white perianth. The broadly ovate back petals almost touch and the inner ovate petals are only slightly narrower. (Photo page 4)

\$22

ELUSIVE - 2 - 3 (26/83), *Challenge x Dorus* Stem 480, Diam 105, 3w-r.

A consistently good flower that lifts its head naturally for good stance. The bright red 22a cup is fairly sun resistant and contrasts with the thick, white petals. Flowers early for its division. *Champion, Hobart 1997.* (Photo page 4)

\$38

OFFICIONADO - 3 - 4 (245/87), *Hartz x 155/78*, Stem 420, Diam 105, 3w-o.

A smooth, pure white, glistening and sparkling perianth that contrasts with the very small, flat disc cup of bright orange 28b that does not burn easily. (Photo front cover)

\$35

FERRAL - 4 - 5 (174/81), *69/70 x H Reeve*, Stem 450, Diam 105, 4y-o.

A late flowering, large, yellow and orange double that has the strong, straight stem to support it. Three to four layers of thick, rounded petals with the half length corona segments showing plenty of colour. (Photo page 4)

\$48

WAMPUM - 4 (398/88), *122/83 x 211/78*, Stem 450, Diam 108, 4w-p.

The best pink double we have produced. A rounded perianth of very broadly ovate segments before the three-quarter length pastel pink 28d corona segments start, showing more pink than white. A full, consistent double with good stance. (Photo page 4)

\$95

New Releases Continued

WANNABE - 4 - 5 (103/85), unknown x Chios, Stem 380, Diam 104, 4w-yyp.

A later flowering, very full pink double, showing a lot of its pink colour. A flat perianth that is inclined to reflex before the almost half length corona segments that are yellow at their base with the pastel pink rim the dominant colour. Very strong stem.

\$28

WOOLAROO - 1 - 2 (12/85), unknown x Chios, Stem 400, Diam 100, 4w-wwp.

An early flowering pink double that always has pollen. The corona segments are almost the same length as the petals and are a pale yellow which fades to white with a pastel pink 27a rim that is the dominant colour.

\$18

DIVISION 1: TRUMPET DAFFODILS

One flower to a stem; trumpet or corona as long or longer than the perianth.

YELLOW TRUMPETS (Yellow Perianth, Yellow Trumpet)

BUCHAN - 1 (32/83), 3/74 x Baradoc, Stem 360, Diam 97, 1y-y.

✓ This flower is smaller and shorter than most yellow trumpets we grow, but cannot be ignored because of its of its consistent good form, substance and colour. Champion, Claremont 1995

\$12

DISQUIET - 4 (254/87), Odin x Scipio, Stem 480, Diam 102, 1y-y.

At last, a late flowering, deep golden, yellow trumpet. A double triangular perianth of thick, broadly ovate petals 9a in colour. The cylindrical trumpet is rolled at its end and is most unusual in that its yellow 12a colour changes to a light orange 17b if the flower is picked and shaded. (Photo back page)

\$35

HABIT - 1 (3/89), 3/74 x Ricom, Stem 558, Diam 111, 1y-y.

✓ An early flowering, consistently smooth and vigorous, all yellow trumpet that produces excellent show blooms. The petals are broadly ovate, overlapping in the back and almost touching in front. The funnel shaped corona is flared and frilled.

\$20

HITCHHIKER - 1 (25/79), Ristin x Otewa, 1y-y.

A good, even, smooth flower of deep golden yellow. The petals are shovel shaped and have great substance. The trumpet is slightly tapered and has a small frill. Stands very well on a tall, strong stem. Champion, Hobart 1980 & 1986.

\$10

PAEAN - 2 - 3 (103/87), Sasham x Scipio, Stem 480, Diam 105, 1y-y.

A consistent, smooth yellow trumpet with plane, shovel shaped petals and a cylindrical, flared trumpet, slightly darker than the petals. Stands well on a tall stem. Champion, Launceston 1997.

\$25

RAMPAGE - 2 (12/87), 3/74 x Prado, Stem 400, Diam 108, 1y-y.

A golden yellow trumpet with smooth, thick, broadly ovate petals that touch at the back and are slightly concave. The funnel shaped trumpet has a slight flare and frill but is not too bold. Champion, Launceston 1997.

\$25

SOBERSIDES - 1 - 2 (5/83), 3/74 x Warcom, Stem 490, Diam 107, 1y-y.

An early flowering, golden yellow trumpet with thick, smooth, ovate petals, touching at the back and not much narrower in the front to form a wide, double triangular perianth. The cylindrical trumpet is in proportion and is usually flared. Champion, Hobart 1995. (Photo page 17)

\$17

ZILLION- 2. (22/85). Akala x 9/72. Stem 450. Diam 115.1y-y.

An early flowering bright golden definite trumpet with a plane perianth of broadly ovate petals. The narrow cylindrical trumpet has a flare that is frilled.

\$17

REVERSE BI-COLOUR TRUMPETS (Yellow Perianth, White Trumpet)

EXTROVERT - 2-3. (66/87). *Comal* x *Day Dream*. Stem 600. Diam 102. 1 yyw-wwy

A reverse bi-colour trumpet on a tall stem. The petals are rounded flat and smooth with a white halo at the base of the trumpet. The trumpet reverses to a pure white with a yellow band on its flared rim. (Photo page 17).

\$10

GAMUT - 4. (179/84). 70/76 x *Day Dream*. Stem 440. Diam 100. 1 yyw-wwy

A smooth consistent reverse bi-colour with the trumpet and petal length equal. The petals are smooth and shovel shaped with the back overlapping. The trumpet has a narrow rim of yellow on its frill and the perianth has a distinct sharp halo at the base of the trumpet.

\$13

BI-COLOUR TRUMPETS (White Perianth, Yellow Trumpet)

ALLEZ - 1. (128/89). 135/78 x *Hangfive*. Stem 450. Diam 102. 1w-y

A slightly smaller but early flowering, smooth and consistent, pure white and bright yellow bicolour with broadly ovate and ovate petals. The imposing trumpet is flared and frilled.

\$14

CLUBMAN - 2. (28/84). *Helsal* x 36/75. Stem 400. Diam 103. 1w-y

An early flowering and long lasting show cultivar with broadly ovate pure white petals. The well proportioned cylindrical trumpet has a flare and slight frill, it is a bright lemon colour that does not stain the perianth. Strong and healthy. (Photo page 8).

\$25

COMPUTE - 1-2. (36/79). *Lenz* x *Helsal*. 1 w-y

A large early bi-colour which has a very large long trumpet of bright yellow that does not stain the perianth. The perianth is triangular and very smooth, opens a little muddy but whitens to a pure white. A very consistent smooth flower carried well on a tall stem. *Champion, Launceston 1986, Canberra 1990*.

\$10

MAREEBA - 3. (151/79). *Donah* x *Wilbur*. Stem 470. Diam 115. 1 w-y

A large, imposing trumpet that is consistent with good form and thick solid substance. The petals are very broadly ovate and ovate forming a slightly triangular perianth. The cylindrical trumpet is of average width and rolled without frill at its end, and its 3C lemon colour does not stain into the white perianth. *Champion, Orange 1995*. (Photo page 21).

\$40

PREDATOR - 3. (216/79). *Helsal* x *Lenz*. 1 w-y

A bi-colour that just measures with the trumpet and petals the same length. The trumpet is lemon coloured, narrow and tubular with a slight expansion at its slightly frilled end.

\$12

SILVER MINX - 3. (121/84). 27/77 x *Tamarus*. Stem 430. Diam 112. 1 w-y

A flat, smooth brightly contrasting bi-colour. The plane, double triangular perianth of ovate petals is very smooth. The long cylindrical trumpet has a definite roll with its deep lemon 12A colour just staining into the perianth. A very consistent show flower that is often in our show team. (Photo page 20).

\$22

1 W-W

YELLOW-PINK TRUMPETS (Yellow Perianth, Pink Trumpet)

RELENTLESS - 4 (189/84), *Lalita x Day Dream*, Stem 490, Diam 97, 1w-p.

A yellow-pink trumpet of pale and attractive colours, yellow 5b, corona 10d. The plane rounded perianth is of very broad ovate petals that overlap at the back. The funnel shaped corona is flared and frilled. A good show flower.

\$15

PINK TRUMPETS (White Perianth, Pink Trumpet)

BUNDY - 2 - 3 (80/78), *Verran x 74/70*, 1w-p.

A borderline trumpet that won Grand Champion at Hobart on its first flowering. The petals are shovel shaped with the back petals touching and the front almost touching. The trumpet has bright colour, is straight with a frilled roll.

\$20

DI-HARD - 2 - 3 (128/88), *268/76 x 42/76*, Stem 450, Diam 105, 1w-p.

A very consistent, bright, smooth pink that just measures trumpet with broadly ovate petals. The narrow, cylindrical trumpet has a slight flare. *Champion, Hobart 1995*. (Photo page 21)

\$45

TWERP - 2 - 3 (81/87), *Vivacious x Valiant*, Stem 550, Diam 113, 1w-p.

A pastel pink 27a trumpet that is funnel shaped and flared. The petals are broadly ovate and the same length as the trumpet. (Photo page 21)

\$18

Also available - MELANCHOLY, MOSSMAN, NUKE & YORKY

\$6

WHITE TRUMPETS (White Perianth, White Trumpet)

KINGURRA - 1 - 2 (67/77), *Mercedes x 19/70*, Stem 500, Diam 107, 1w-w.

The perianth is smooth and triangular. The petals are slightly pointed and wide at their base with the back set overlapping. The trumpet is almost straight with slight ruffing at its end. Very consistent. *Champion, Hobart 1997*.

\$23

KURREWA - 3 (88/87), *Far Fetched x Delight*, Stem 400, Diam 110, 1w-w.

Just measures trumpet with the trumpet and petal length the same. A plane perianth of broadly ovate petals of thick substance. The cylindrical trumpet is the same pure white as the petals and ends with a frilled flare. Very consistent and a strong grower. *Champion, Hobart 1995, Launceston 1997* (Photo page 8)

\$35

QUARK - 2 - 3 (98/85), *Who's Who x 120/79*, Stem 470, Diam 102, 1w-w.

The petals are thick, smooth and broadly ovate. The rather plain cylindrical trumpet is of good proportion and has a plain, straight rim. *Champion, Launceston 1997*.

\$18

WHY NOT JOIN THE TASMANIAN DAFFODIL COUNCIL

Send \$12 Membership to:

Mrs Mary Crowe
103 Carella Street
Howrah Tasmania 7018
Ph: (03) 6247 8226

Copies of the National Daffodil Association of Australia's Inaugral Bi-annual Journal are still available at a cost of \$15 (RRP).

DIVISION 2: LARGE-CUPPED DAFFODILS

LARGE CUPS – ALL YELLOW (Yellow Perianth, Yellow Cup)

ACCOMMODATE - 2 (63/87), Barfly x Truvius, Stem 500, Diam 112, 2y-o.

A double triangular perianth with the very broadly ovate petals overlapping at the back. The petals are thick and smooth yellow 7a. The funnel shaped trumpet-like cup is flanged, frilled and a slightly darker colour at yellow 9a.

\$15

CLICHE - 2 - 3 (100/85), 11/77 x Scipio, Stem 450, Diam 115, 2y-y.

Another consistent, smooth Scipio cross with the cup a slightly darker yellow than the perianth. A plane, smooth perianth of broadly ovate petals, a cylindrical trumpet with a slight flare. (Photo page 8)

\$20

MACHAN - 2 (48/84), Gratia x 58/73, Stem 480, Diam 108, 2y-y.

A triangular, flat, smooth perianth of bright golden yellow and thick substance. The straight plane three-quarter length is a slightly darker colour. Champion, Mudgee 1995.

\$15

NYNJA - 3 - 4 (47/86), 11/78 x Scipio, Stem 400, Diam 105, 2y-y.

A very consistent smooth flower that just measures large cup with the cup 2mm shorter than the petals. A plane, rounded perianth of very broad ovate petals, slightly lighter coloured than the funnel shaped, straight, plain trumpet. Good stance on a strong stem and every flower is show quality. Champion, Launceston 1993 and 97, Orange 1993 and 95. (Photo page 20)

\$40

LARGE CUPS (Yellow Perianth, Red or Orange Cup)

BANKER - 2 - 3 (145/89), 217/82 x Janz, Stem 450, Diam 110, 2y-o.

Part of our red trumpet breeding program, and although the four-fifth length trumpet is not brightly coloured, this cultivar is retained for its perfection of form. A very, very consistent and excellent show flower that has won many awards. Champion, Launceston 1994, Claremont 1996. (Photo page 8)

\$36

BIONIC - 3 - 4 (227/87), Rabid x 141/87, Stem 550, Diam 110, 2y-o.

A later flowering yellow red with a pronounced orange flush in the perianth. The cup shaped corona is a bright orange 28a colour. Division Premier, Christchurch 1996. (Photo page 21)

\$22

CONTRAVENE - 4 (253/87), Jandra x Pzaz Stem 500, Diam 100, 2y-o.

A bright lemon yellow 6c perianth of very ovate petals overlapping at their back. The cup shaped corona is a bright orange-red 28b throughout, giving good contrast. Later flowering than most in this division. Champion, Orange 1995. (Photo back page)

\$15

COWBOY - 3 (128/75), Coope x Craze, 2y-y.

A bright, attractive flower with broad, overlapping major petals of good substance and colour. The short cup is slightly flared with a bright, attractive orange right to its base without running into the perianth. Champion, Launceston 1979 and in our winning Australian Open Team Spring World NZ 1984.

\$10

DEMMO - 1 (33/87), F Silcock Sig no Rw 2/761 x 5/77, Stem 480, Diam 102, 2y-o.

A good, bright, long lasting and almost sun-proof flower that is amongst the first to open here. Looks like, and occasionally measures trumpet. The ovate petals are flat and smooth. The cylindrical cup or trumpet is bright orange to its base. (Photo back page)

\$20

ENTENTE - 3 (259/88), Gallactica x Mattara, Stem 600, Diam 110, 2y-o.

A large, very tall, consistent flower with a slightly concave golden yellow perianth of terrific substance. The more than half length funnel shaped cup is orange to its base and is sun resistant. (Photo page 21)

\$55

GALLACTICA - 2 (66/83), 290/70 x Sansui, Stem 520, Diam 107, 2y-yo.	\$24
A tall striking flower that, front on, gives the impression of having a narrow rim of bright red, but side on the funnel shaped cup is more than half a fairly sun resistant red. The petals are a contrasting deep golden yellow, very smooth with thick substance and are an ovate shape. Stands up well and all flowers are consistently good. <i>Champion Novice, Hobart 1997.</i> (Photo page 17)	
GOFORIT - 2 (20/83), Careyem x 56/75, Stem 480, Diam 102, 2y-r.	\$32
A flower with an excellent show record, including Grand Champion at Hobart on its first flowering. A rounded perianth of deep golden yellow with a slight flush of red. The petals are round and broadly ovate. The funnel shaped cup is a bright red to its base. A striking, very smooth and consistent show flower. <i>Champion, Hobart 1983, 86, 90, 91 and 93, Launceston 1990.</i> (Photo page 17)	
HEAD HUNT - 2 (51/87), Colourful x Mattara, Stem 550, Diam 107, 2y-r.	\$22
A striking flower of good, bright yellow 9a, broadly ovate petals, thick and very smooth. The half length cup is a bright 25a orange to its base. Stands up well on a long stem and is consistently good. (Photo page 17)	
SACROSANCT - 2 (20/85), Dynamic x Kudos, Stem 425, Diam 95, 2y-yyr.	\$18
A smaller flower with a very sharply defined rim of bright red on the outer third of the flattish cup. The broadly ovate petals give a plane, rounded perianth. (Photo page 8)	
SHOCK-WAVE - 2 (49/83), Colourful x 124/75, Stem 375, Diam 107, 2y-r.	\$18
A bright, attractive flower similar to Colourful but with a slight flush of red in the perianth. The petals are rounded, slightly concave and a deep golden yellow. The bowl shaped, half length corona is bright red 28a which seems to reflect on the petals.	
TERMINATOR - 1 (15/89), unknown, Stem 450, Diam 110, 2y-r.	\$35
An early flowering, yellow-red with consistently good form. The bright red cylindrical cup is two-thirds the length of the petals and has a slight frill. The broadly ovate petals have a noticeable red flush. An excellent show flower. <i>Champion, Hobart 1994, 96.</i> (Photo page 8)	
THYLACINE - 3 - 4 (114/84), Colourful x Cowboy, Stem 570, Diam 112, 2y-r.	\$12
A tall, bright flower that really stands out in the garden. Smooth, golden yellow shovel shaped petals with strongly contrasting orange red 30c half length cup that is goblet shaped, finishing with some slight serration. Very consistent and almost sun-proof.	
Also Available: AUSPICIOUS, CAREYEM & LETSEE.	\$6
LARGE CUPS (Yellow Perianth, Pink Cup)	
ACUMEN - 4 (232/87), Lalita x Day Dream, Stem 425, Diam 107, 2yyw-p.	\$23
The broadly ovate petals are a glistening lemon yellow 6c, with a distinct halo of white at their junction with the half length cylindrical cup of pink 22c. An attractive late flower. (Photo back page)	
POSAI - 3 (279/79), Chino x Day Dream, Stem 400, Diam 98, 2y-p.	\$8
The perianth is rich yellow, of good form and is slightly cupped with a slight halo at its junction with the cup. The cup is three-quarter length with an expanded frill. The cup is a pale pink-yellow colour that pinkens slightly more with maturity. A productive parent.	
TEARAWAY - 3 (141/84), Pink Silhouette x Day Dream, Stem 400, Diam 100, 2y-p.	\$12
A very attractive flower with lemon 4b coloured petals and pale pink 198 cup. The perianth is round and smooth with the back petals almost touching. The petals are paler in their centres and tips, with a hint of a halo at their base. The cup is tapered with a slight roll, and frills slightly at its end.	

LARGE CUPS (White Perianth, Coloured Cup)

BOI - 3 (260/80), Matika x Toya, 2w-yoo. A consistent, even striking flower with rounded petals. The almost flat cup is yellow at its base, merging to orange at its fluted and serrated rim. Stands well on a strong stem.	\$12
GRAFFITI - 2 - 3 (66/77), Challenge x 170/67, 2w-yoo. A very good, round flower with a pure white perianth, the back petals touching and the front almost touching, and of good substance. The cup is flared and although lobed, does not often catch. It is yellow with the outside third a fairly defined rim of orange. Very consistent and well presented. Champion, Launceston 1985, 86 and 94, Hobart 1993 and 94.	\$20
HIJACK - 4 (56/86), 243/75 x 216/75, Stem 480, Diam 105, 2w-r. An eye-catching flower of fantastic colour, form and substance, that presents itself well on a short neck. The pure white rounded perianth is almost half covered by its bright red disc-shaped corona. (Photo page 21)	\$75
OOPS - 2 - 3 (118/87), 118/82 x 224/79, Stem 475, Diam 110, 2w-y. A tall flower of classical form, with its broadly ovate petals touching back and front. The short cup with its plain, even rim is yellow throughout. Often measures division three, but most are division two. (Photo page 8)	\$40
PIEMAN - 3 (59/80), Lod x Nala, Stem 450, Diam 115, 2w-y. A bold striking flower that really hits the eye in the garden or on the show bench. The triangular perianth of good, smooth, thick ovate petals is stained at its margin with the bright, deep lemon 16b colour of the funnel shaped and flared corona. Champion Launceston 1988.	\$10
PINAROO - 2 (136/85), unknown, Stem 490, Diam 115, 2w-y. A flat, white and yellow bi-colour with a double triangle of ovate smooth, thick petals. A bit starry, but has the consequent flatness desired by some judges. The colour contrast is good with pure white petals, unstained by the bright lemon three-quarter length funnel shaped cup with a straight rim.	\$15
PUNTER - 1 (23/89), Calleva x Pieman, Stem 584, Diam 110, 2w-y. A very smooth and consistent show flower that is very early for its division. The back petals are ovate, the inner narrower, the lemon yellow of the straight cylindrical corona does not stain the perianth. Stands well on a tall stem and is a good grower. (Photo page 21)	\$22
SAKURA - 4 (282/82), Toya x Dorus, Stem 370, Diam 100, 2w-oy. An attractive show flower with a pure white, rounded perianth of very broadly ovate petals. The disc shaped cup is a bright orange 25b colour except for a narrow defined band of yellow around its rim. The cup is lobed, sometimes to its base, with the lobes overlapping.	\$25
SCALLYWAG - 3 (269/78), 167/70 x 144/70, 2w-yoo. A bright, attractive consistent show bloom that is not far off division 3. The petals are white, smooth and shovel shaped. The saucer shaped cup is yellow with a bright orange frill.	\$12
TISA - 3 (203/78), 167/70 x Toya, Stem 370, Diam 105, 2w-o. A consistent flower of great contrast with a bright orange 25a cup of six overlapping lobes split almost to its base. The triangular perianth is of good, thick substance, the back petals larger than the front. Stands well on a shortish stem with a short neck. Champion, Launceston 1990.	\$20
Also available: DORUS, HASSLE, KAY, MANTA, MATIKA & TAXATION	\$6

LARGE CUPS (White Perianth, Pink Cup)

BELUSHKA - 4 - 5 (257/82), *Melancholy x Madang*, Stem 340, Diam 98, 2w-p.

A small, bright pink that measures trumpet and equally often measures division 2. The circular perianth has very broadly ovate back petals and ovate inner petals of pure white. The cylindrical trumpet is flared and ruffled of 27b pastel pink.

\$12

CHERANA - 3 - 4 (124/89), *195/82 x 75/78*, Stem 375, Diam 115, 2w-p.

A large, very striking flower because the cup has a very broad flange that covers half of the perianth. The broadly ovate petals have good substance and are slightly concave, giving a good back to the bold cup.

\$17

CLIQUE - 2 - 3 (67/78), *Dear Me x Velask*, 2w-p.

A smooth, even flower of good substance and colour which stands well on a strong stem. The back petals are broad and shovel shaped, the minor are not quite as broad. The shortish cup is straight with an attractive roll.

\$15

FORTE - 2 - 3 (58/78), *VERRAN x Tim*, 2w-p.

A slightly small flower of bright contrast and one of our deepest pink colouring. The petals are shovel shaped with the back petals touching.

\$11

LAWLESS - 2 (129/78), *Verran x Accent*, 2w-p.

A pastel pink cup which tapers from its base to an almost plane rim. The Verran perianth has broad, shovel shaped petals that overlap at the back.

\$12

NERIDA - 2 (53/84), *Vandyke x 113/75*, Stem 350, Diam 108, 2w-p.

An early flowering salmon pink with broadly ovate petals that overlap at the back and have good thick substance. The bold, flared cup can occasionally measure trumpet. *Division Champion, Hobart 1993 and 94.* (Photo page 8)

\$28

NEXUS - 2 - 3 (78/78), *Dear Me x 110/70*, 2w-p.

From a Verran seedling. This flower has a deep pink corona with a slight roll. Stands well on a good stem and the petals are nicely shovel shaped.

\$18

OMOPH - 3 (248/87), *Vahu x Precocious*, Stem 500, Diam 108, 2w-p.

A striking flower which is what you would hope for with this cross. Very broadly ovate petals, overlapping and touching, of pure white. A most colourful funnel shaped and frilled corona of bright pink.

\$35

VAHU - 1 (30/70), *Verran x Cathlin*, 2w-p.

An early pink of outstanding quality. The perianth has excellent substance, but is inclined to catch on the cup and nick. Stands tall on strong stem with good carriage and is a proven parent. Has won too many show awards to list. Few to go. *Premier Spring World 1984.*

\$12

WONTOK - 3 (128/83), *Cherry Rim x 192/75*, Stem 440, Diam 105, 2w-wwp.

A white flower with a narrow rim of pastel pink on the edge of the corona. The petals are broadly ovate and ovate of good, thick substance. The mid length cup is straight except for the flanged narrow pink rim. (Photo back page)

\$15

Also Available: VARLET, VELIA & PUK-PUK.

\$6

This catalogue features a sample of our range.

We have many other varieties available including rare and specialist bulbs. Please contact us for further information.

LARGE CUPS (All White)

BARNSTORM - 4 (59/77), *Waikato x Glendermott*, 2w-w.

A large, strong definite division two with broad, shovel shaped petals forming a flat perianth. The three-quarter length cup is slightly creamier than the perianth, and is almost straight with a slight flair. Champion, Ulverstone 1994.

\$28

CHUTZPAH - 4 (251/87), *Thisbe x Ragamuffin*, Stem 550, Diam 108, 2w-w.

A beautiful, flat, smooth, even coloured, consistent flower with broadly ovate petals touching at the back, and narrow cylindrical flared corona. (Photo page 21)

\$28

DEELENA - 3 - 4 (286/82), *186/76 x Scope*, Stem 380, Diam 104, 2w-w.

The rounded perianth of smooth, thick, very ovate petals which overlap at the back is a glistening white. The funnel shaped corona is creamier and has a slight roll. Can measure trumpet but is usually division two.

\$25

KOOMOOLOO - 3 (115/85), *Who's Who x 120/79*, Stem 450, Diam 120, 2w-w.

A large, pure white with a flat, plane perianth and a narrow cylindrical cup with a straight edge that is only just shorter than the petals.

\$22

MIRRABOOKA - 2 - 3 (81/81), *Rhapsody x Immaculate*, Stem 450, Diam 110, 2w-w.

A vigorous, healthy, vivid white large cup with the best of both parents. A flat double triangular perianth of very broadly ovate back petals and ovate minor petals. The funnel shaped three-quarter length cup has a yellowish green eye and a flare at its end. (Photo page 20)

\$28

SEA LEGEND - 3 - 4 (88/81), *Rhapsody x Immaculate*, Stem 450, Diam 100, 2w-w.

Opens small with its head hanging, but after a few days grows out and lifts its head to be a very good show flower that has inherited the strong constitution of both its parents. The rounded, flat perianth of glistening, pure white, very broadly ovate petals is a perfect foil for the short, cylindrical, straight cup that has a green eye. A flower that is usually in our show team. Champion, Hobart 1985, Fortuna USA 1994.

\$10

WILD OATS - 2 - 3 (188/80), *152/70 x Waikato*, 2w-w.

A smallish, neat flower with broad, shovel shaped back petals. The inner petals are not quite as wide at the base. The cup is short and tubular with a plain end. The neck is short with good pose on a strong stem.

\$17

Also Available: CORDITE, INGLE, KIALOA.

\$6

DIVISION 3: SMALL-CUPPED DAFFODILS

One flower to a stem; cup or corona 1/3 or less than the length of the perianth

SMALL CUPS (Yellow Perianth, Yellow Cup)

GETAWAY - 4 - 5 (205/81), *242/75 x Sea Dream*, Stem 500, Diam 100, 3y-y.

A smooth perianth of rounded petals that are paler than the cup. Petals yellow 4d, cup yellow 12a. The cup is delicately frilled and has a deep green eye. A very definite division three with a petal length of 45mm and a cup length of 10mm. Good stance and proven parent of 3y-y.

\$8

NONCHALANT - 4 (208/84), *250/84 x Lemonade*, Stem 570, Diam 97, 3y-y.

A very good, bright yellow flower with a round perianth of broad shovel shaped petals overlapping the back and with the flat front almost touching. The petals, 3b are almost the same bright colour (6b) as the cup. The cup is flared and frilled with a deep green eye. Every flower has measured division three for the last two years.

\$12

TRYAD - 4 (180/81), *94/74 x Lemonade*, Stem 550, Diam 98, 3y-y.

A definite division three with a petal length of 43mm and a cup of 12mm. The perianth is rounded with round petals that are paler (3d) than the yellow 9a cup. The short cup is slightly expanded and a deeper yellow at its end.

\$8

SMALL CUPS (Yellow Perianth, White Cup)

CHORTLE - 4 (137/85), 249/78 x Lemonade, Stem 550, Diam 115, 3y-w.

A definite division three and a definite reverse bi-colour. The bowl shaped cup first opens the same colour as the broadly ovate and ovate petals before turning white. A double triangular flower with glistening smooth petals that reflex slightly.

\$43

SMALL CUPS (Yellow Perianth, Coloured Cup)

BOTLAR - 2 - 3 (65/85), Azzuro x Tia, Stem 510, Diam 104, 3y-r.

A round flower with overlapping, very broadly ovate and slightly concave petals of smooth, thick substance, a clean, lemon yellow colour. The cup shaped corona is a bright 28b red to its base. Very consistent, needs picking early or shading. *Champion, Launceston 1993, Hobart 1997.*
(Photo page 17)

\$28

NAKAJIMA - 4 (214/79), Tia x Kopi, Stem 510, Diam 110, 3y-o.

A large, bright, striking and extremely consistent flower with a very good show record. The perianth is triangular of very broadly ovate, slightly concave back petals and ovate inner petals, very smooth and rich lemon yellow 5b in colour. The small cup is straight and a deep orange to its base, has a good stem and stance. *Champion, Launceston 1979, 88, 90 and 91, Leongatha 1997.*

\$10

SHERATON - 4 (197/84), Tia x 267/78, Stem 550, Diam 98, 3y-r.

A consistent smooth flower of bright contrasting colour. The concave rounded perianth of very broadly ovate petals overlap at the back and touch in the front. The red 30b corona is cup shaped with a slight frill. It has a long perianth tube and back but still has good stance on a tall strong stem.
(Photo page 20)

\$32

TAO - 3 (204/87), Pzaz x Odulation, Stem 550, Diam 102, 3y-o.

A midseason small cup with very broadly ovate petals that overlap at the back, giving a flat, rounded perianth. The cup shaped corona is a bright 25a orange. *Divisional champion, Launceston 1994 and 97.* (Photo page 21)

SMALL CUPS (White Perianth, Coloured Cup)

HARTZ - 4 (243/75), *City Lights* x *227/67*, 3w-o.

A striking flower of great contrast with bright orange cup against a pure white perianth. The perianth is triangular with good solid substance. Stands well on a long stem. Proven breeder.

\$10

MOOMBA - 4 (272/77), *Verona* x *Placid*, Stem 550, 3w-yyo.

A late flowering definite division 3 with round, smooth perianth of good substance. The very small bowl shaped cup is yellow but for a very narrow band of orange on its rim.

\$12

NITRO - 2 (119/78), *Envoy* x *Kabi*, 3w-o.

An early flowering division three with flattish cup. The perianth is pure white with broad overlapping shovel shaped petals. *Champion, Launceston 1987*.

\$8

NO WORRIES - 4 (246/88), *118/82* x *220/79*, Stem 650, Diam 125, 3w-wwy.

An early flowering division three with a flattish, cup. The perianth is pure white with broad overlapping shovel shaped petals. *Champion, Launceston 1987*.

\$18

SYMPTOM - 2 - 3 (160/77), *Envoy* x *Kabi*, 3w-o.

A very bright, striking flower of great contrast with a very white rounded perianth of broad, shovel shaped petals of great substance and smoothness. The saucer shaped cup is bright orange red with a slight frill. A consistently good flower that just measures division three.

Champion, Launceston 1989, 90 and 96.

\$30

TRU - 2 - 3 (245/77), *Bandit* x *221/69*, Stem 460, Diam 100, 3w-wwy.

A very attractive flower that has a flat, white cup with a narrow, bright yellow 6a trim. The perianth is round with good substance. The back petals overlap with the front only slightly smaller. Stands up well on a good stem and is consistent. Has often been in our winning teams and easily measure division three. *Grand Champion, Canberra 1994.*

\$15

TRUCULENT - 3 (386/88), *118/82* x *220/78*, Stem 650, Diam 108, 3w-wwy.

A tall, large flower that just measures division three. A rounded perianth of very ovate petals that can touch in the front and overlap at the back. The bowl shaped cup has a very distinct narrow golden yellow rim. Very smooth and consistent. *Champion, Launceston 1997. (Photo back page)*

\$40

YUM-YUM - (232/77), *Josiana* x *Sea Dream*, 3w-wwy.

A tall, striking flower with an almost perfectly round, glistening white perianth with every petal touching or overlapping. The short, frilled cup has a narrow, cream rim. It is a consistently good flower. *Champion, Launceston 1986, Hobart 1995.*

\$8

Also Available: EPONA, GOWO, POTENT, TARDUS & REKUNA

\$6

SMALL CUPS (White Perianth, White Cup)

FARRAGO - 2 - 3 (287/80), *Placid* x *Verona*, Stem 450, Diam 93, 3w-w.

A round, white flower that opens with the cup slightly yellow. This slowly fades to creamy white. The petals are smooth and rounded. Stands up well and is early for its division. Consistent and a good show flower. *Champion, Launceston 1985, 89 and 96, Orange 1990.*

\$28

STEREO - 2 - 3 (202/81), *212/75* x *Sea Dream*, Stem 550, Diam 97, 3w-gww.

A definite division three with a round perianth of bright white with good substance. The cup is frilled and has a dark green eye. Has a good stand and neck for this division. *Champion, Hobart and Launceston 1990, Leongatha 1997.*

DIVISION 4: DOUBLE DAFFODILS

Double flowers

DOUBLES (Yellow Perianth)

BRINDABELLA - 2 (95/87), 3/74 x 284/80, Stem 400, Diam 95, 4y-y.

A deep, golden yellow double with three layers of petal and the two-third length petaloids an even darker yellow. An early show double with strong stem and good stance that has set seed.
Champion, Hobart 1994, Ulverstone 1996. (Photo page 8)

\$21

LAUNY - 3, 3y-y.

A full, all yellow double that stands up tall and strong in the garden. Has set seed.

\$6

DOUBLES (Yellow Perianth, Coloured Petaloids)

RANSOM - 5 (154/85), Day Dream x Tavelle, Stem 450, Diam 90, 4y-p.

A yellow-pink double with two layers of 5b yellow petals with a narrow halo of white at their base. The petaloids open yellow, soon changing to pink 16d. It always has a style and is fertile. Late flowering.

\$30

DOUBLES (White Perianth, Coloured Petaloids)

BALLYHOO - 2 - 3 (239/82), Career x M Evans sig, Stem 450, Diam 100, 4y-o.

A bright, colourful, long lasting double that stands up and hits you in the eye. The white petals are in strong contrast to the very bright orange petaloids.

\$8

FOIBLE - 2 (34/72), Chimeon x Lawali, 4w-y.

An attractive white and pale yellow double with just a touch of pink on the yellow petaloids. It has a strong stem of medium length and stands well.

\$8

FORTESCUE - 3 (147/84), Potent x Glowing Red, Stem 460, Diam 95, 4w-r.

An outstanding double of most perfect form with four to five layers of perianth neatly in line and symmetrical, interspersed with short, bright red petaloids. It has a long, thick, stiff stem and neck which gives it ideal stance, only occasionally has pollen or style. Very consistent. The white is not pure, but the contrast is so great it doesn't detract. *Champion, Canberra 1986 and 93.*

\$45

HUON CHIEF - 4 (305/78), Blodfier x Tavelle, 4w-y.

A very full double with bright lemon petaloids that stands well on a medium length, strong stem. A very consistent flower that won its class in Launceston 1990.

\$12

HUON GLOW - 5 (306/78), Signal Light x Tavelle, 4w-o.

A vigorous, sturdy double of thick substance with up to four layers of petals interspersed with short, bright orange-yellow petaloids. Sometimes has pollen and style.

\$12

MASSERATE - 4 (187/84), Nala x Tavelle, Stem 430, Diam 108, 4w-y.

A very full, heavy double of great substance that has the stem to support it. There are two layers of petals which before the bright yellow 9b petaloids start, these are almost as long as the petals and so show lots of colour. The centre petaloids have a distinct pink tinge. A show quality flower with a slight scent.

\$15

MUSTER - 2 (18/85), Toya x Glowing Red, Stem 460, Diam 100, 4w-o.

A very showy, bright and extremely long lasting flower that is good for show and garden. Three layers of white petals with bright orange 28b corona segments. Flowers early for a double. (Photo back page)

\$20

OTAGO - 4 - 5 (107/84), <i>Evens sig x 244/75</i>, Stem 450, Diam 110, 4w-y.	\$23
A large, very, very full double that has the strong, stiff stem necessary to carry it. It has seven or more layers of petals and two-third length yellow corona segments. (Photo page 21)	
RAGER - 3 (53/83), <i>Challenge x Glowing Red</i>, Stem 480, Diam 90, 4w-o.	\$24
An attractive white-orange double with a good, strong stem. The three to four layers of perianth aren't pure white but contrast well with the bright orange petaloids. A good bright show and garden double. (Photo page 20)	
SURE WIN - 2 - 3 (58/85), <i>Gay Slide x Unk. Double</i>, Stem 400, Diam 90, 4w-r.	\$45
A full, formal double with five to six layers of pure white petals that almost hide the short, bright red 30c petaloids except in the very centre of the flower. A consistently good show bloom.	
ZUMDISH - 3 (53/83), <i>Career x M Evans SLG</i>, Stem 470, Diam 87, 4w-o.	\$20
An attractive double with two to three layers of creamy white perianth showing a lot of the bright, orange-red of its petaloids. Often has pollen and with its good, strong, stiff stem it's ideal for breeding and the show. The petaloids are yellowish on opening then darken to a bright orange. Very long lasting. Champion, Orange 1993. (Photo page 20)	

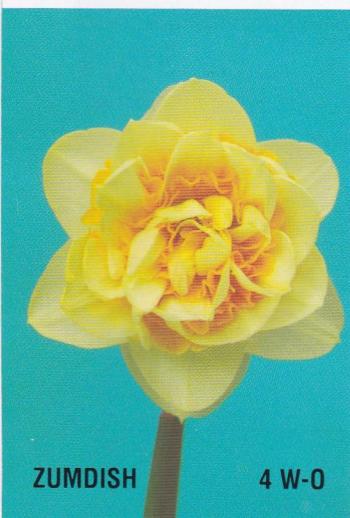

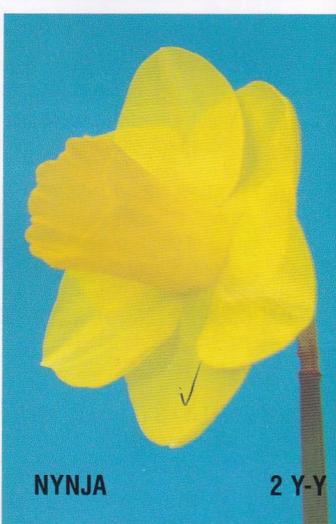

DOUBLES (White Perianth, Pink Petaloids)

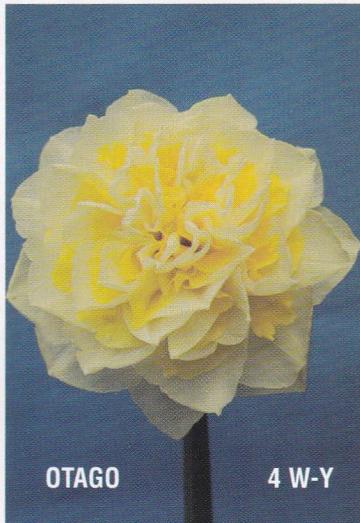

NEEWARI - 3 (134/84), <i>309/76 x M Evans Sig</i>, Stem 470, Diam 96, 4w-p.	\$18
A bright, attractive pink double that shows more of its pink 28d than most. Has three layers of petals with the back ones inclined to reflex. A good, strong stem and stance.	
OLD STAGER - 2 - 3 (198/79), <i>Kimellen x Rose Rhythm</i>, Stem 380, Diam 93, 4w-p.	\$16
A small, attractive double of good form that flower early enough for most shows. The two to three layers of petals of good substance are separated by three-quarter length petaloids with pale pink 27c rim. Strong stem and neck.	
RAUCOUS - 2 (28/79), <i>48/71 x 66/70</i>.	\$16
An early pink double with three sets of rather pointed white petals interspersed with almost as long, creamy pink petaloids. A slightly smaller flower with good stance on a strong stem.	
SCENTELLA - 3 (117/69), <i>Chimeon x Lawali</i>, 4w-p.	\$18
A large double with a full centre of pink and white petaloids that can cause the stem to curve. Strongly and very pleasantly scented.	

DOUBLES (White Perianth, White Petaloids)

HUON PRIDE - 5 (300/76), <i>Chimeon x Tavelle</i>, Stem 500, Diam 93, 4w-w.	\$20
The petaloids are pale yellow on opening, soon fading to a white only very slightly creamier than the petals. A full, symmetrical double with five sets of petals and a tall, strong stem. All white doubles are rare but this flowers too late for Tasmanian shows.	
SHYKOWSKI - 3 - 4 (116/83), <i>116/77 x Tavelle</i>, Stem 380, Diam 95, 4w-w.	\$18
A full, round double with two or three layers of broadly ovate, smooth, thick petals interspersed after the second layer with petaloids which are lemon on first opening but which soon fade to a white that is only marginally creamier than the pure white petals. Champion, Whitemore 1994.	

This catalogue contains true photographic images of our products,
they have not been altered in any way.

DIVISION 11: SPLIT CORONA DAFFODILS

One flower to a stem; corona split – usually for more than half its length.

BLITZ - 1 (40/87), *King Size x 116/77*, Stem 420, Diam 108, 11aw-y.

An improved split corona with a large, bright yellow 9a corona evenly split into six segments that lay back and almost cover the perianth of pure white broadly ovate petals. A good show or garden flower and early flowering. *Champion, Launceston 1994, Hobart 1995.* (Photo page 17)

\$25

GOLDSPLIT - 2 (76/87), *King Size x 116/77*, Stem 450, Diam 126, 11ay-y.

A very large, early to mid season, show quality split corona with the deep golden yellow 14a corona evenly split and covering three-quarters of its paler 6b perianth.

\$20

KAYOKO - 1 - 2 (92/88), *Cassata x 116/77*, Stem 470, Diam 110, 11aw-y.

An early flowering, split corona that has three layers of petals, three layers of corona, three layers of petals, three layers of corona. The yellow 12a corona is more than three-quarters the length of the perianth.

\$20

SHE'S APPLES - 2 (92/87), *Cassata x 116/77*, Stem 420, Diam 105, 11ay-y.

An early flowering, all yellow split corona with a pale yellow perianth. The bright 13a yellow corona is evenly split to its base. It multiplies a bit too well as it sometimes goes to "grass", splitting up into lots and lots of small bulbils. (Photo page 20)

\$10

ZOMBIE - 2 (11/87), *Dolly Mollinger x 116/77*, Stem 400, Diam 105, 11aw-y.

A bright, attractive split corona of such good form that is an excellent show flower often winning champion in its division. The bright yellow 9a corona is evenly split to its base and cover three-quarters of its petals. A tall, striking, long lasting, consistently good show flower. *Open Westbury, 1994.* (Photo page 20)

\$25

DAFFODIL CLASSIFICATION

Daffodils are classified into numbered division; 1 Trumpets, 2 Large Cups, 3 Small Cups, 4 Doubles, 5 Triandus, 6 Cyclamineus, 7 Jonquilla, 8 Tazetta, 9 Poeticus, 10 Species, 11 Split Corona and 12 Miscellaneous Daffodils.

Colours applicable to the description of a daffodil cultivar are: W for white or whitish, G for green, Y for yellow, P for pink, O for orange and R for red.

The daffodil flower is divided into perianth (petal) and corona (cup or trumpet).

The perianth colour is described in three sections, from its outer edge to the junction of its corona. The corona colour is described in three sections from its junction with the perianth to its outer rim. When either the perianth or the corona is the one colour then only one colour symbol is used. First comes the flower division number, then the colour or colours of the perianth, then separated by a hyphen comes the colour or colours of the corona.

For example: 1w-p is a trumpet, with all white petals and an all pink trumpet, 3y-yor is a small cup with all yellow petals and a yellow, then orange, then red corona, 2yyw-yyp is a large cup, the petals are yellow with a small white ring at the junction of the corona, the corona is yellow with a small ring of pink at its outer rim.

It's simple when you get used to it.
