TERMS OF BUSINESS

All prices quoted are in Australian dollars, and may be paid with personal cheques, money orders or Bank Drafts at the exchange rate applicable on our day of banking. Money with orders please unless by prior arrangement.

Substitute bulbs are only included on the rare occasion when the ordered bulb is not available. The substitute bulb will be of a similar type and of at least comparable standard and price. An indication of any preferred substitute, or if you don't wish to substitute, will help us both.

Any over payment due to exchange or postage difference will be adjusted by the inclusion of extra bulbs.

Receipt of orders will not be acknowledged unless specifically requested.

Invoices will be included in with the bulbs unless you request otherwise.

The parcel should be opened on arrival and bulbs planted as soon as possible into cool ground, or the bulbs should be stored in a cool well ventilated location.

Jackson's Daffodils guarantee their bulbs to be sound and healthy. We will readily replace any lost in the year that they are received.

Other catalogues may list our varieties at prices lower than ours. We will more than meet their prices - we will charge 10 per cent less.

DEAR FRIENDS AND VALUED CUSTOMERS,

This year's catalogue is different. We are trying to get up with the I.T. revolution and hope to put it on a web page as well as the normal post delivery. As a consequence we have abandoned the ego-kick high quality printing, we are scanning our own slides, printing out the result, and then the catalogue will be photo-copied, We will lose some of the clarity, but the colour is true and not enhanced in any way.

The other change. is we are trying later posting, to just after Christmas. I know I pick up catalogues, select what I want, even fill out the order form, only to put it down and forget it until too late.

So if you intend to order from us **do it now**, the bulbs are dug, cleaned and dried, just waiting for us to pack them off to you.

TO THE 1999 FLOWERING SEASON.

The most exciting thing about last year's shows was the number of awards won by varieties raised by Jackson's Daffodils, and mostly by other growers, not us.

The ones we know about are :-

The flower name is first followed by a number which indicates its time of flowering here. No.1 for flowering in August; No.2 for the first week in September; No.3 is for the second week; No.4 for the third week; No.5 for the last week and No.6 for those few flowering in October. The variety's seeding number is in brackets with the last number being the year of its first flowering from seed. Then the variety's parentage followed by stem length and the flower's diameter both measured in millimetres. The number in the description is as close as we can match with the R.H.S. colour chart. The recent written descriptions are as close as we can get using the International Daffodil Registrars descriptive terms..
