

AUTHENTICATED BULBS.

offered by James S. Wells. 470 Nut Swamp Road, Red Bank. N.J. 07701.

Three years ago I began collecting narcissus species and miniature hybrids for pleasure. I now have about 70 species and forms, and an equal number of miniature hybrids. In making this collection I have found many bulbs difficult to obtain, many not true to name, and sources very few. I have been fortunate in obtaining bulbs from a number of people but more especially from John Blanchard in England.

I have now decided to attempt to lay down two large pans of each species and variety to grow over a two year period. Each year one pan will become available for replanting and the larger bulbs will be sold. The quantity available each year will be quite small. These bulbs which I have grown and flowered I have called AUTHENTICATED (A), which they will be as far as possible.

I have also obtained bulbs from a good source in Holland, both species and hybrids. All species from there are collected material, which will be variable and not necessarily true to name. Hybrids are usually correct except for an occasional rogue. All dutch bulbs have to be ordered by JULY 1ST. The shipment usually arrives in mid-October at which time they would be immediately sent to you. Ordering from Holland is dependent upon a reasonable total quantity being assembled from all orders.

I have listed the bulbs I shall have as AUTHENTICATED this year and the cost per bulb. Dutch bulbs are shown separately. Please use this list as your order form, and enclose a check with order which should include a sum for packing and shipping based upon 10% east of the Miss:and 20% west of the Miss: Shipments will be by UPS. ORDERS WILL BE DEALT WITH STRICTLY IN THE ORDER OF DATE RECEIVED.

AUTHENTICATED BULBS.

PRICE EACH QUANTITY

N. BULBO: CONSPICUUS. A. Clone True form. Vigorous upright foliage. Large yellow flowers 8"	5.00.....

SUN DISC.....		PLEASURE FROM SEEING JUST WHAT	
TETE-A-TETE.....		COMES UP IN THE MIXED BAG.	
V.P.MILNER.....			

If anyone has bulbs of any species, form of species or miniature hybrids which they can spare and which I need, I shall be glad to EXCHANGE on a bulb for bulb basis. I hope to have some really interesting additions to this list next year. I have two or three forms of N. bulbo Romieuxii which are delightful. Also a dwarf form of N. bulbo Cantabricus similar to N. bulbo cantab petunoides but smaller. N. bulbo Romieuxii Julia Jane is in effect a clear yellow petunoides, and I also have a fine form of N. bulbo cantab. Clusii. I also have a small amount of seed from the N. Romieuxii form listed overleaf.

Mark this list with the quantities of each bulb you wish to have and return, with your name and address filled in together with a check which should include the required amount for packing and shipping. If for any reason bulbs you order are not available, money will be refunded
