Here is our catalogue for February and March 1992.

Please note the changes we have made to our display open days during September. It will be weekends only from now on. The display will still be both indoors and out, with potted bulbs for sale as well as cut flowers.

The flowering times after each description are approximate only as flowering can vary a great deal depending on the climate in your particular area. The times range from very early which could be July through to very late and this could be in early October. Cooler mountain areas are later than other areas.

Because we grow and hand select all our bulbs, we guarantee them to be true to name and from healthy stock. In other words they are guaranteed to flower the first year, however, as we cannot control the way in which the bulbs are grown, please be sure to select the right conditions to avoid disappointment in following years. Be sure to read the growing instructions that are sent with each order.

Thanks for your custom and we hope you continue to grow and enjoy Daffodils.

Good Gardening Everyone!
Ken & Beth Hughes

DISPLAY AREA

Please note the changes to our display hours:
WEEKENDS ONLY

We will be open on September 5-6, 12-13, 19-20.

Our customers are welcome to visit our large display area during the flowering season. As well as the outdoor display we have an indoor display as the weather is often very cold. Admission is free.

By seeing the flowers, we hope that it will be easier for everyone to decide which daffodils to choose. Bulbs may be ordered at this time of the year. Flowers and pots are also for sale at this time.

\$50.

POETICUS RECURVUS 10W-GYR Often called the Poets Daffodil or Pheasants Eye. The latest flowering of them all and one of the most delightful. The fluted, glistening white perianth segments are a wonderful contrast to the little eye rimmed with red. *VERY LATE*. 3 bulbs for \$2.50, 12 for \$8.50 (Picture page 24)

VAN SION 10Y-GY A very popular double. The petals are tightly packed golden yellow and green. Ideal for rockeries or naturalising. *EARLY*. \$1.00

SPLIT CORONA DAFFODILS

DIVISION 11

AHOY 11W-Y A pretty medium sized flower. White perianth and yellow split cup that sits flat against the back. *EARLY*. \$6.00

ORANGERY 11Y-OY White overlapping perianth, with a very bright orange split corona edged faintly with yellow. Wonderful contrasting colour in this flower. *LATE*. \$8.00

SOHO 11W-Y A flower of bright colouring. The perianth is milky white while the large split cup is a bright shade of yellow. The perianth protrudes through the cup. Very vigorous grower. *LATE*. \$6.00
