Altogether delightful. **£12 each; 3 for £30.**

YOUNG IDEA

One of our jonquil seedlings and something a little different. Two or three neat blooms are well posed on strong stems. OUR COLLECTIONS 1982

Each year a larger proportion of our trade belongs to our collections. We flatter ourselves that this is because they give value and are carefully made up to give a good balance of colours, types, and flowering periods but with the over-riding consideration that each kind chosen must be a highly reliable kind. We know the stocks we have of these varieties are good and it certainly helps to simplify dispatch work to deal with collections.

Here are the collections that we are offering this year.

AMBERGATE – THE SUCCESS STORY

Ambergate

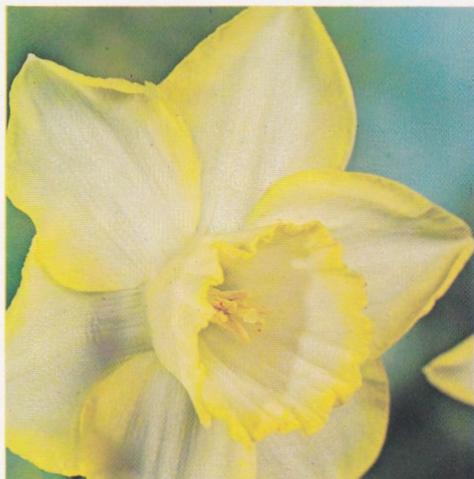

A SUCCESS STORY – The success of a new daffodil may be judged by the prizes it wins at shows or by the number of bulbs ordered by gardeners and by this measure Ambergate is one of the century's greatest successes. We have never handled any variety that has enjoyed such an immediate and sustained response since we introduced Ambergate in 1971. Ambergate has gone all over the world, to all the likely spots like Holland and the USA, but also to unlikely ones like Japan, Norway, and some South American countries. This flamboyant flower is the result of several generations of breeding. It is the strongest coloured flower yet generally available. The wide crown is a rich scarlet, the petals are a glowing tangerine orange. A pyromaniac in the border, a flower that will set the garden alight and make a seasoned fire-eater think twice. Fortunately it is a strong growing bulb. Since 1971 has consistently headed our list of top sellers. Illustrated. **£1 each. 10 for £9. 50 for £42. 100 for £80.**

Late flowering quality flower rather like Pas-sionale but possibly with more rounded petals. Very pure rose pink flanged crowns. **£4 each.**

LEONAINE

Good white petals form a pleasing perianth behind a neat bowl crown of a pink that at an early stage has often a strong hint of lavender. A useful breeding plant but well worth a place on its own considerable merits. **£2.50 each.**

MY LADY 4

Infatuation x Debutante.

A very free flowering kind and possibly the darkest pink of all the many we have here. Clean white petals and dramatic dark pink rather narrow crown. **£10 each.**

MY MY

Sturdy late flower with rigid flat white perianth and a trumpet shaped crown of dark pink. Always popular when seen here. **£8 each.**

NEWSTAR

Newstar is one of the new pinks that have brought top quality to this group. Happily it is strong growing and free of bloom and increase. Immaculate perianth arranged from broad rounded petals polished flat and shining white behind a broad bowl of rich glowing pink. Quite lovely. **£12.50 each.**

PINK GIN

Always enjoyable, in bulk quite intoxicating. Tall well posed blooms of clean white and pink. **£2 each.**

YES PLEASE

Glorious deep pink. Very white petals are inclined to lean a little backwards giving the flower a distinctive appearance and making

Yes Please

much of the vivid deep pink in the bold crown, a pink neither compromised by orange or mauve. Almost too eye catching as it is difficult to keep up with the demand for bulbs despite the fact that it is one of the strongest growers. **£6 each.**

**YELLOW & PINK
LARGE CUPS**

Leonaine open pollination.

Real novelty. Triangular petals painted a soft chamois yellow with enough lemon in it to set off the unusual apricot pink of the well balanced crown finished with a restrained frill. Scarce. **£12 each.**

WHITE SMALL CUPS

CUSHENDALL

Has been one of my favourite flowers since I first took an interest in daffodils about forty years ago. It still remains one of the most desirable of flowers and most sought after. Stocks have been minimal because of the constant demand. Now fortunately we have a reasonable number of bulbs and so offer it with some trepidation as we expect an avalanche of orders. The flowers are perfect circles of snowy white, the neat cream edged little cups being filled with delightful mossy green. The green colouring is quite irresistible. One of the other joys of the plant is that it blooms so late that it helps extend the season. Good plant. **75p each. 10 for £7. 50 for £35. 100 for £68.**

DREAMCASTLE 4-5

Green Island x Chinese White.

A giant of immaculate form and exquisite quality. Hugely overlapping pure white petals and a shallow quite wide saucer crown also pure white. Strong. **£8 each.**

Most jonquils have the engaging characteristic of increasing very rapidly. Bobbysoxer is a leading exponent of this art of procreation. Its flowers are round, deep primrose yellow in the petals whilst the almost flat cup is bright tangerine centred gold. 8". **40p each. 10 for £3.50. 50 for £15. 100 for £28.**

BUFFAWN

Tall and strong. 2 or 3 to stem. Buffy coloured wide petals and bold cups darker buff. Quite distinct flower and colour. **£8 each.**

CLOUD NINE 4

Quickstep x Daydream.

This is classified as a large cupped reversed bicolor, but to my mind belongs with the jonquils. Somewhat pointed petals very flat and overlapping well. A longer crown that usual with jonquils. The vivid luminous rich lemon is retained by the petals but the crown passes to pure white. One of the most admired flowers we have shown. **£8 each.**

CHIT CHAT

From juncifolius x jonquilla, a late flowering delightful small flower. Stands about 8" high with two or three perfectly formed golden blooms to a stem but a profusion of stems create a crowd of blossom. **£3 each.**

HIGH NOTE 4

Quickstep x Daydream.

Whilst Cloud Nine is usually single flowered, High Note can have one, two or three blooms to a stem. The colour is a similar vivid lemon but the crowns are wider, quite flared. An unusual and appealing kind. **£8.50 each.**

LINTIE 4

Jonquil hybrid.

Built on the same attractive design lines as Bobbysoxer and similar in colour. It differs by being marginally larger, somewhat taller, and earlier in bloom. 9-10". **40p each. 10 for £3.50. 50 for £14. 100 for £26.**

ORYX 3-4

Aircastle x jonquilla.

Two or three very refined circular blooms with neat cups. Pale lemon yellow, the perianth keeping a good colour, the cup becoming almost white. Stands about 18" high. Scarce. **£5 each.**

PET FINCH 1-2-3

Very prolific little dandy, gives crowds of singly borne flowers and a nest full of bulbs. Rounded golden petals and cups of rich tangerine. Earliest of all jonquils. Most excellent little plant. 15". **£2 each. 10 for £18.**

PETRAL

From Quick Step x triandrus albus. Can have up to seven flowers on a 12" stem. Widely pointing narrow petals and neat cups. Shades of ivory and white. **£12 each.**

PUEBLO 3-4

Increases quicker than an overdraft! White flower opening a little creamy. One, two, or three flowers to a stem, but a regular forest of stems from two year down bulbs. **£2 each. 10 for £18.**

QUAIL 3

Daydream x jonquilla.

Absolutely flat golden petals. Rather long slender crowns of just slightly deeper gold. Two or three flowers to stem. Very free of bloom and increase. A few to go at **£9.**

QUICKSTEP 5

SUNDIAL 4

Jonquil hybrid.

A show dandy in transistorised form. Perfect round flower, silky smooth and a rich gold. The virtually flat disc crown is the same gold but with a dab of green in the very centre. Large flowers, neat plant, fast increaser. 6". **45p each. 10 for £4. 50 for £18. 100 for £32.**

SWEETNESS

A very neat golden jonquil. Flat pointed petals and goblet crowns. Always winning on the show bench. Scented. Good bulb that flowers and increases well. **35p each. 10 for £3. 50 for £14. 100 for £26.**

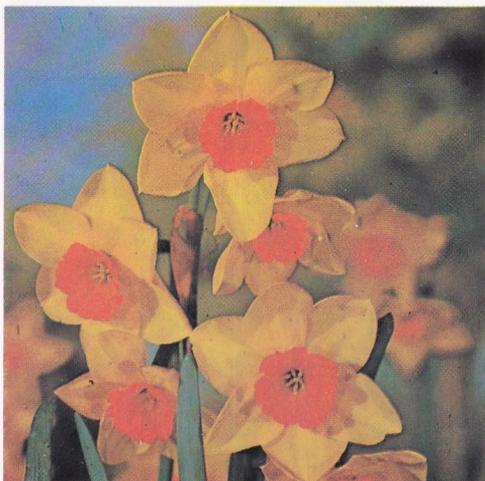

Sundisc

SUNDISC 4

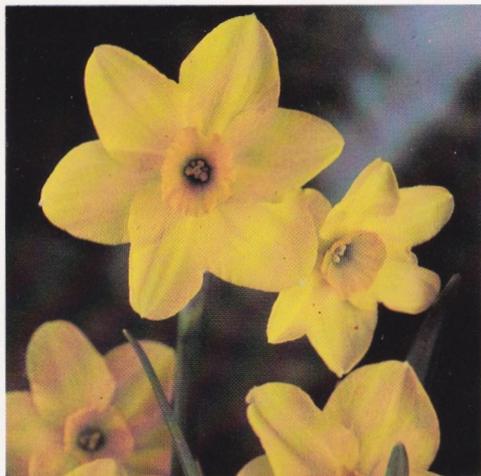

Gorgeous little jonquil. A perfect circle of gold with a flat spun wide eye of gold. Quite one of the most perfect of all daffodils large or small, this one stands only about 6" high. SUZY 4-5

About 20" tall with two or three large flowers. Wide rich golden petals and wide almost flat crowns of rich orange. Highly perfumed. Late and most popular. **45p each. 10 for £3.50. 50 for £15. 100 for £28.**

Sundisc

SUNDISC 4

Gorgeous little jonquil. A perfect circle of gold with a flat spun wide eye of gold. Quite one of the most perfect of all daffodils large or small, this one stands only about 6" high. A delightful disposition ensures an almost indecently rapid rate of increase. **50p each. 10 for £4.50. 50 for £20. 100 for £38.**

TETE A TETE 1-2

clamineus hybrid.

Probably the finest of all dwarfs. Very very early and tremendously long lasting. Stems 4-6" with one or two relatively large smooth shining flowers. Golden oval petals at right angles or slightly reflexed from neat longish crowns of pale tangerine. Increases and blooms with ridiculous abandon. Constantly praised by customers who grow it. **30p each. 10 for £3. 50 for £14. 100 for £25.**

TENBY DAFFODIL (N. obvallaris.) 1

Reliable opening bat. A wild plant from Pembrokeshire that naturalises in grass, between shrubs and any old corners. Grows to about 10-12" but dies down early so that grass may be cut before becoming one step from primeval forest. Neat foliage. Very free of bloom. I believe it is even better than our native Lent Lily as a naturalised plant. **10 for £2.50. 50 for £10. 100 for £19. 500 for £90. 1000 for £165.**
