

MONOCOT NURSERY
'Jacklands',
Jacklands Bridge,
Tickenham, Clevedon,
Avon BS21 6SG,
England.

Only the Narcissus pages
are included here.

Plant List 1994-5

Beaumontia venusta
A.B.S. 4536
France, Morocco.

All plants listed are grown here on the nursery, the greater part from seed which ensures robust virus-free stocks.

For conservation purposes, where stocks are from a known original source, this is briefly given. Where stocks are from various sources these are also given with collectors initials and collection numbers so that they may be precisely identified from the collectors field notes.

This general list is without descriptions or cultural details as I expect enthusiasts to have some idea of the plant they wish to grow. Reference is recommended to:- 'The Bulb Book' by Rix & Phillips, 'Dwarf Bulbs' and 'Larger Bulbs' both by Brian Mathew or 'Bulbs' by Grey-Wilson & Mathew for descriptions and/or illustrations of most of the plants listed here. For Narcissus species 'Narcissus' by John Blanchard or 'Modern Miniature Daffodils' by James Wells are comprehensive and well illustrated. 'The Crocus' and 'The Iris' both by Brian Mathew are the current handbooks on these genera.

All plants listed are top size unless otherwise stated but flowering is not guaranteed as subsequent growing conditions are in the hands of the customer. If you are not satisfied with the goods as received, please return and I will replace or refund.

May I draw your attention to my seed list devoted entirely to bulbous and tuberous-rooted plants which is issued annually at the end of October. About 500 species are usually listed including many which are never available in my list as flowering size material. A stamped self addressed envelope would be appreciated.

Bulbs for late summer - early autumn delivery.

Orders from March until August.

AMARYLLIDACEAE

Amarine x fletcheri	4.00
Brunsvigia multiflora	6.50
" multiflora alba	7.00
Brunsvigia rosea minor	5.00
