Oregon Trail Daffodils Catalog 1990

A spring visitor inspects the flowers...

Spring 1990

Greetings from Daffodil Hill!

We begin our second year as Oregon Trail Daffodils by extending thanks to all our customers and others who have helped make our first year a rewarding one -- by giving us your encouragement, your criticism, and of course, your business! 1989 was a year for learning -- stumbling here and there -- and with our feet now firmly planted in our Corbett soil, we look forward to earning your satisfaction for many years to come.

We continue to miss our mentor Murray Evans a great deal, but we are enthusiastic about working with Aunt Estella to keep his legacy alive. While we are not introducing any new Evans cultivars in this year's catalog, we expect to devote a great deal of time this season to the evaluation and selection of Murray's seedlings for registration and sale. We have been able to list once again several varieties, including Ghost, which were absent from the Evans list for many years.

Our own hybridizing program, now in its sixth year, has produced a number of promising and exotic flowers. Now that the "pipeline" is filled, we look forward to new delights and surprises each spring.

As always, we welcome your comments, suggestions and criticism -- let us know how we're doing. And we invite you to visit and wander through the fields with us this spring. Thanks again for a great year.

Bill & Diane Tribe

Murray Evans Cultivars

Murray Evans (1912 - 1988) lived his entire life in Corbett, Oregon. He worked with daffodils more than 50 years, starting in a family business with his grandfather and uncles, then growing his own commercial bulbs and cut flowers with his wife Estella. With the encouragement and assistance of Grant Mitsch, Murray began hybridizing in 1953 and offered his first new hybrids for sale in 1968. Approximately 200 Evans-bred daffodils have been registered -- a wide variety of show and garden flowers.

- DAWNLIGHT** 1Y-W Each...\$5.00

- DIVIDEND** 1Y-Y Each...\$5.00
 1975 LM. 42cm. Lunar Sea x Bethany. F-266/8. This flower extends the season in Division 1 by opening late, often with the poets here. Several knowledgeable people have recently taken issue with Murray's disclaimer that the bloom was "not really distinctive in its class."
- EGGSHELL** 2Y-Y Each...\$5.00
 1976 M. 49 cm. Oneonta x Protege. K-7/1. Name suggests the velvety finish rather than color, which is a subdued shade of soft buff primrose. Perianth round and flat, with heavy substance. Flaring short cup, sulfur yellow in throat. Strong stem, short neck, and good pose. Recommended for show and garden.
- EVERPINK** 2W-P Each...\$10.00
 1970 LM. 36cm. Wild Rose x Interim. E-229/1. This medium-sized flower misses division 3 by only 2mm. Holds its deep pink color well. Perianth is broad and smooth. Good for show and garden.
- FOLIO** 2Y-Y Each...\$10.00
 1986 M. 35cm. Bridal Rose x Chiloquin. S-7. Selected for form and show qualities. Color of old ivory, may be whiter in warmer climates. Very smooth, well overlapping perianth. Long, straight cup with some flare at margin. Strong, medium length stem with short neck.
- FOXFIRE** 2W-GWO Each...\$5.00
 1968 M. 41cm. Limerick x (Shirley Neale x Chinese White). C-153. About the size of Limerick, but rounder and flatter. Perianth snow white, cup has a wide band of coral-salmon on the margin and a green eye. Area between is luminous, greenish-white, which suggested the name.
- GHOST** 1-W-W Each...\$50.00
 1974 EM. 45 cm. Celilo x (Petsamo x Zero). L-32. To Murray, this was the paragon of white trumpet daffodils -- tall, prim, graceful, and very white. Perianth segments broad, with just enough wave to avoid stiffness. Trumpet slim at base, tapering to only 25mm at margin. Offered for the first time since its introduction. Limited stock.

- GIGOLO** 2Y-Y Each...\$3.00
 1977 M. 41cm. Aircastle x Protege. J-45. Very smooth, broad, flat perianth opens deep primrose and becomes lighter with age. Short tapered cup just misses division 3. Tall, strong stem and short neck. Bloom faces up well.
- GINGER** 2Y-Y Each...\$9.00
 1974 M. 43cm. Aircastle x Protege. J-45/1. Good show flower, the color of powdered ginger. Vigor and durability qualify it as a garden subject, as well. Large smooth perianth, with wide and rounded segments. Cup flared and crinkled at margin. Perfect division 2 proportions.
- HEART THROB** 2W-GWP Each...\$15.00
 1976 M. 34cm. Everpink x [(Caro Nome x (Mabel Taylor x Rosario)) x Interim] L-39. Could be considered an improved Everpink. Wide, flat and clean white perianth, inner segments not so broad. The green-eyed cup is white with a 1/2-inch band of ripe strawberry. Beautiful.
- ICE AGE** 2W-W Each...\$5.00
 1976 EM. 36cm. Zero x (Kanchenjunga x Zero). F-268. Well-grown blooms of this are striking, with their sail-like, smooth perianths. Cups are fairly long, tapered sharply at margins and flared. Very short necks, blooms nicely posed. Seed parent of Cataract.
- IVY LEAGUE** 1W-Y Each...\$4.00
 1971 M. 45cm. Effective x Festivity. F-303/2. A consistent producer of show-quality blooms. The big flowers stand proud and tall on ramrod-stiff stems. Winner at several eastern shows. Limited stock.
- JANICE BABSON** 2W-WWP Each...\$9.00
 1968 M. 41cm. Cordial x Caro Nome. G-25. Entire flower is snow white except for a band of "baby pink" on the margin of the ruffled cup. Perianth segments are broad and somewhat pointed. One of our favorites.
- JET SET** 1W-Y Each...\$2.00
 1971 M. 45cm. Effective x Festivity. F-303/1. Selected along with its sister Ivy League by Bill Pannill, and both have proved their worth at shows. Good form and cleaner color than Ivy League, but slower to increase. Garden and show.

- PORTRAIT** **2W-P** **Each...\$15.00**
 1983 M. 37cm. Cordial x Caro Nome. L-30/2. Sister of Dewy Rose and Ken's Favorite, this has proved outstanding and dependable, smoother than its sibs. Broad clean white perianth with a solid deep rose pink cup, slightly frilled.
- PROFILE** **2W-Y** **Each...\$2.00**
 1970 LM. 53cm. Limerick x Broughshane. B-110. This skyscraper stands up in most Oregon weather. Not really distinct; resembles Polindra, and opens when others of this type are past their prime.
- PYRITE** **2W-GYY** **Each...\$5.00**
 1977 L. 41cm. Artist's Model x Marshfire. I-19. This late flower may be more consistent in other locales. Sometimes during cold, wet spells it doesn't open properly; spectacular when it does. Very large, round ivory-white perianth, inner segments slightly wavy. The short, somewhat frilled cup has a deep green eye.
- RAIN DANCE** **2W-W** **Each...\$15.00**
 1986 EM. 40cm. Celilo x Arctic Doric. N-35. Fairly large flower with flat, overlapping perianth, very white. Tapered cup with some flare and frill at the margin. Bloom posed at 90 degrees to the tall strong stem. For garden or show.

 1975 M. 45cm. Daydream x New Era. K-39/1. Sister of Epitome. Large, tall, and smooth with well-overlapping perianth. Instead of fading to white, the trumpet turns peachy-buff with age.
- SERAPE** **3Y-YYO** **Each...\$8.00**
 1977 M. 36cm. Aircastle x Showboat. M-55. Looks much like Aircastle with an orange-red rimmed cup. Unlike Aircastle, it opens soft canary yellow and remains the same color throughout its life. Very smooth and round. Bloom nicely posed. Makes small bulbs.
- SHORTCAKE** **2W-P** **EACH...\$15.00**
 1983 M. 46cm. Rose City x Chiquita. Q-19/1. Tall for a pink, with form somewhat like Chloe. As the name implies, the long goblet shaped cup is almost strawberry colored here. Will be paler in less favorable climates. Limited stock.

- **SHRINER** 2W-Y Each...\$2.00
 1972 E. 42cm. Wahkeena x (Content x Flora's Favorite). G-16/1. Probably better for a garden flower, though some may be smooth enough for show. The pale yellow cup fades to almost white with age. Prolific, durable, and nicely posed on stiff stems.

- **SNOW PINK** 2W-P Each...\$5.00
 1972 LM. 40cm. Shirley Wyness x (Interim x Mitsch pink seedling). F-277/2. Sister of Vantage, and name aptly describes colors: very white and very pink. Not large, about 90 mm diameter, it is graceful and colorful.
- **SPACE AGE** 2Y-Y Each...\$2.00
 1965 M. 51cm. Polindra x Playboy. M-54/1. Clear, medium yellow self. Has vigor, substance and durability. Good plant with blue-green erect foliage. Recommended for garden, though some may qualify for show.
- **STARLET** 9W-GYR Each...\$10.00
 1985 L. 40cm. recurvus x Dallas. N-25/4. A modified recurvus with wider perianth segments and less backsweep. Perianth is snow white in contrast to the small eye which is green to midway, blending to yellow with a narrow red rim. Good flat cupped poet, earlier than recurvus.

 1971 M. 36cm. Daydream x Bethany. H-16/1. Smooth and attractive, with a long cup which ages to peachy-buff here. Turns whiter in warmer climates, hence it has been reclassified from 2Y-Y. Does well in shows.

Revised Classification of Daffodils 1977

1. The classification of a daffodil cultivar shall be based on the description and measurements submitted by the person registering the variety, or shall be the classification submitted by such person.
2. Colors applicable to the description of daffodil cultivars are abbreviated as follows:
W-white or whitish; G-green; Y-yellow; P-pink; O-orange; R-red.
3. For purposes of description, the daffodil flower shall be divided into perianth and corona.
4. The perianth shall be described by the letter or letters of the color code most appropriate.
5. The corona shall be divided into three zones: an eye-zone, a mid-zone, and the edge or rim. Suitable coded color descriptions shall describe these three zones, beginning with the eye-zone and extending to the rim.
6. The letter or letters of the color code most accurately describing the perianth shall follow the division designation.
7. The letters of the color code most accurately describing the zones of the corona shall then follow, from the eye-zone to the rim separated from the perianth letters by a hyphen. In Division 4, the letters of the color code most accurately describing the admixture of petals and petaloids replacing the corona shall follow in proper order, using 3, 2, or 1 color codes as appropriate.
8. If the corona is substantially of a single color, a single letter of the color code shall describe it.
