OUR 1985 EYE CATCHER

6342 STRESA*

Fine Indian-yellow, the base has blood-red blotches, exterior currant-red edged yellow. One of the most beautiful and striking members of the Kaufmanniana Tulips. Grows 7 inches tall.

\$3.50/12; \$10.25/50;
\$17.00/100

Only the daffodil pages
are included.

DAFFODILS & NARCISSI

(ONLY LARGE DOUBLE NOSED BULBS SUPPLIED)

Cultivation & Planting Guide

Naturalizing Daffodils and Narcissi in Grass, etc. Most Daffodils and Narcissi are suitable for naturalizing but in very heavy soils, preference should be given to stronger growing kinds e.g. Trumpet varieties and many Large-Cupped. They are all admirably adaptable for grassy slopes and banks, where they should be freely planted. A splendid effect is obtained when Trumpet and other varieties are grouped separately, scattered on the ground and planted where they fall.

Soil and its Treatment. Daffodils and Narcissi will thrive in any well-cultivated and well-drained garden soil. In preparing the ground for planting, dig deeply and if well-rotted stable or cow manure is available this may be advantageously worked in 10 to 16 inches deep so as not to come into immediate contact with the bulbs. Never use fresh manure of any kind at planting time. On poor and dry sandy soils we recommend a dressing of bone meal at a rate of about 1 oz. per square yard to be sprinkled over the surface of the ground after planting. The bulbs should be covered with soil to a depth of once and a half to twice its own depth, measuring the bulb from base to shoulder.

HEIGHT — The heights given in inches are as recorded at our nurseries.

DEPTH TO PLANT — Failures with bulbs are most frequently due to their having been planted too deeply or too shallow. A good general rule to follow is to cover the bulb with soil once and a half to twice its own depth, measuring the bulb from the base to shoulder. Thus a daffodil bulb measuring two inches from base to shoulder should be covered with 3-4 inches of soil.

*AS ONE GARDENER TO ANOTHER

6106 50 Bulbs, 10 each of 5 named varieties, our selection	\$22.00
6107 100 Bulbs, 20 each of 5 named varieties, our selection	\$42.00

Special Mixtures For Naturalizing

The following mixtures are specially made up by us from separate varieties, and are of superior quality.

6108 LARGE AND SMALL-CUPPED NARCISSI MIXED
A mixture which includes a varied selection of the Narcissi, creating a striking effect wherever planted. This mixture will supply flowers over the longest possible flowering period.
\$4.75/12; \$14.75/50; \$24.50/100

6109 TRUMPET DAFFODILS MIXED
This mixture is carefully made up from named varieties and includes Yellow, Bicolor and White Trumpets so as to give a marvelous display in borders, naturalized or grown for cutting; and selected to provide a colorful display over a long period.
\$4.75/12; \$14.75/50; \$24.50/100

6110 NARCISSI AND DAFFODILS ALL KINDS MIXED
We offer a fine mixture of Narcissi and Daffodils, especially made up from named varieties which are particularly suitable for naturalizing and large plantings in clumps in your shrubby border, in woodlands, herbaceous borders, orchards, in grass and for liberal plantings for cutting.
\$4.50/12; \$13.50/50; \$22.50/100

BULB PLANTERS

THE FAST EASY WAY TO PLANT YOUR BULBS

These special chrome plated steel planters remove just the right amount of soil with one motion. Saves time and eases the work. Planters will not break or bend, even under constant use. Attractive and durable. Takes guess-work out of bulb planting. Drills one to four inch holes accurately.

7000 \$4.50

TRUMPET DAFFODILS (DIV. 1)

8000 ARCTIC GOLD

Deep golden yellow perianth with deep golden yellow trumpet. Ht. 18". Early. Excellent.
