NARCISSUS (Daffodils)

Used in large quantities for forcing for cutflowers and potplants and most popular for all gardening purposes, Daffodils are one of the main items in the bulb trade.

For planting in woodlands, for naturalizing and „Wild gardening“ they are very popular.

Blooming in abundance in March-April, there is no other flower signifying so well the Spirit of Spring as the Daffodil.

Our list is made up according to the new classification of the Royal Horticultural Society.

YELLOW TRUMPETS

Trumpet as long as or longer than perianth segments; trumpet lemon-yellow or sulphur-yellow with perianth of same shade.

p. 1000
