HARDY CYCLAMEN
NATIVE PLANTS
HARDY FERNS
SPECIALTY BULBS
LILY SPECIES
HARDY PERENNIALS

Greetings from Eagle Crest

For those of you who don't know us, we are a small family operation conducting a mail-order only business. Our gardens are open only by appointment.

We specialize in hardy perennials, native plants, and specialty species bulbs - our full catalog is available for \$2, which is credited to your first order and continues your name on our mailing list for two years.

We continue to be enthusiastic about the daffodils we offer. As you may know Murray Evans has been hybridizing daffodils for over 30 years and is one of the top hybridizers in North America. Bill Pannill is recognized by many as the premier amateur hybridizer - for several years his efforts were offered thru Murray who continues to offer their newest introductions.

We have again reduced prices where supplies will allow and believe you will find some real bargains in the list.

All orders must be prepaid. We pay shipping and handling charges on orders over \$15.00 - ON ORDERS UNDER \$15.00, PLEASE ADD \$3.00 FOR SHIPPING AND HANDLING.

We will begin shipping in September, please advise us of any special requirements.

Good Growing

Yvonne & Russell

Murray W. Evans Cultivars

ALBACORE...K-12 (Lunar Sea X Galway) X Glenmanus 2 W-Y 1976 M Ht. 32cm. Perianth large, smooth, flat. Petals somewhat pointed. Pale to deep primrose cup is long, narrow at base, slightly flared at margin. Short necked flower nicely posed on stiff stem. Suitable for show and garden.

Each...\$5.00

ARAPAHO...F-285 Blarney X (Duke of Windsor X Lady Kesteven) 2 W-00Y 1970 M Ht. 48cm. Tall, strong stemmed and vigorous. Like many of Blarney's descendants it has a salmon-orange cup with yellow margin. Resembles Ariel but perianth is whiter, cup margin more frilled.

Each...\$2.00

BUCKSKIN...G-29/1 Green Island X Foggy Dew 2 Y-Y 1973 LM Ht. 41 cm. Name describes color, though in warmer areas cup may be lighter than perianth. Good show form, with beauty and durability for garden.

Each...\$5.00

CHARADE...K-50 Greenland X Green Island 2 Y-Y 1976 M Ht. 37cm. Another smooth broad, flat flower that opens white, then ages to a soft greenish beige. Color similar to that of Aircastle. Rather straight cup is lightly fluted, frilled at margin. Short neck, good pose.

Each...\$6.00

CHEDDAR...F-292 Festivity X 2B sdlg. 2 Y-Y 1971 M Ht. 38cm. Smaller sister to Monument. Round, smooth, and well poised. Perianth medium yellow, cup goblet shaped, cheesy buff color.

Each...\$2.00

CHORALE...H-53 Falaise X Actaea 3 W-YYR 1975 LM Ht. 43cm. Like a giant poet. Gleaming white, broad flat perianth. Small yellow cup edged red.

Each...\$4.00

CHORINE...H-8 Complicated pedigree involving several seedlings. 2 W-YYW 1974 LM Ht. 43cm. Dubbed "Bearded Lady" when first seen, it can hardly be classed as a show flower. The not too white perianth is smooth considering the fuzzy cup it enfolds in bud. The long yellow cup contrasts well with the perianth and sports a white margin which might be likened to the frills and flounces of a chorus girl's costume. Vigorous.

Each...\$5.00

DIVIDEND...F-266/8 Lunar Sea X Bethany 1 Y-Y 1975 LM Ht. 42cm. This flower extends the season in division 1A by opening late, often with the poets here. Good plant, but bloom not really distinctive in its class.

Withheld this season to increase stock.

EGGSHELL...K-7/1 Oneonta X Protege 2 Y-Y 1976 M Ht. 49cm. Name suggests the velvety finish rather than color, which is subdued shade of soft, buff primrose. Perianth round and flat, with heavy substance. Cup short flaring, sulphur yellow in throat. Strong stem, short neck. Flower faces upward from 90 degrees. Recommended for show and garden.

Each...\$7.00

FOXFIRE...C-153 Limerick X (Shirley Neale X Chinese White) 2 W-GWO 1968 Ht. 41cm. About the size of Limerick, but rounder and flatter. Perianth snow white, cup has a wide band of coral-salmon on margin and green eye. Area between is luminous, greenish white, which suggested the name. **Each...\$3.00**

GIGOLO...J-45 Aircastle X Protege 2 Y-Y 1977 M Ht. 41cm. One of the smoothest flowers we have raised. The broad, flat perianth opens deep primrose, and of course it has a fault; the perianth fades to light primrose with age. The short, tapered cup almost puts the flower in division 3. Tall, strong stem and short neck. Bloom posed at 90 degrees. Show and garden.

(Limited) Each...\$5.00

IVY LEAGUE...F-303/2 Effective X Festivity 1 W-Y 1971 M Ht. 45cm. Probably the most consistent producer of perfect blooms of any 1B we have seen. Mounted on ramrod-stiff stems. Winner at several Eastern shows. **Each...\$4.00**

JET SET...F-303/1 Effective X Festivity 1 W-Y 1971 M Ht. 45cm. This flower and its sister, Ivy League, owe their existence to the discerning eye of Bill Pannill, who selected them from our F-303 series. Both have won awards at Eastern shows. Cleaner color than Ivy League, also a slower increaser. Good form and pose, and both qualify for show and garden. **Each...\$3.00**

JOLLY ROGER...E-250 Wahkeena X sdlg. from Bread and Cheese 2 W-Y 1969 M Ht. 43cm. Circular, wide petaled perianth which opens pure white. Medium length cup of bright, rich yellow, ruffled at margin. **Each...\$3.00**

LIMBERLOST...C-25 Carolina X Lady Kesteven 3 W-YYW 1969 L Ht. 51cm. Probably too odd for acceptance at shows. Large, tall and snow white stamens extending from the margin. Resemble great white moths when stirred by a breeze. **Each...\$3.00**

LOLLIPOP...J-16 Green Island X Actaea 3 W-Y 1976 Ht. 40cm. Perianth broad, flat, smooth and round. The small cup is light lemon and frilled. Stem tall and strong, short neck. For show and garden. **Each...\$4.00**

LOSTINE...H-25 Chinese White X (recurvus X Carolina) 3 W-GWW 1969 L Ht. 43cm. Smooth and snow white throughout except for green eye. **Each...\$4.00**

MARIMBA...F-260 Sacajawea X Armada 2 Y-YYO 1973 EE Ht. 51cm. Earliest blooming flower we have raised. Bright yellow perianth, cup brilliant orange-red for most of its length. Tall, colorful & very vigorous. **(Limited) Each \$4.00**

MARSHFIRE...C-151 Limerick X Bithynia 2 W-YOR 1970 LM Ht. 43cm. A half sister to Foxfire, this is larger, rounder, and the coral-red cup with dark green eye is more highly colored **Each...\$3.00**

MINIKIN...F-310/2 Snowball X Interim 3 W-GYR 1970 LM Ht. 41cm. Similar to Minx, a bit smaller and with reflexed perianth. Poet-like cup wire edged red, and stands the sun fairly well. Better increaser than Minx. **Each...\$2.00**

MINX...F-310/1 Snowball X Interim 3 W-GYR 1969 Ht. 41cm. Beautiful poet-type flower with round, flat glistening white perianth. Small yellow cup edged red; may lose the red edge in adverse conditions. **Each...\$3.00**

MONUMENT...F-292/1 Festivity X 2B sdlg. 2 Y-Y 1969 M Ht. 40cm. Huge flower, all yellow, cup a bit deeper than perianth. Flat, overlapping petals, good form and vigorous. **Each...\$4.00**

NEHALEM...G-40 3 W-GWY 1979 M Ht. 45cm. A happy mixture of Rubra, Otranto, Caroline and Marshfire. Tall, durable, with green eyed frilly cup. Occasional white flecks on cup margin may spoil it for show. **Each...\$3.00**

ONEONTA...from open pollinated Mitsch seedlings 2 Y-Y 1968 L Ht. 41cm. Only 2A self we know that blooms so late in the season. Very smooth and vigorous flower of medium yellow with greenish highlights. (Limited) Each...\$3.00

PEACE PIPE...C-173 Effective X 1B Mitsch seedling. 1 W-Y 1969 M Ht. 41cm. Smooth Bi-color of very good quality and balance. Straight trumpet has no ruffle or roll. Popular despite its unusual form. **Each...\$3.00**

PINK FLARE...H-45 Rose of Tralee X Rose City 2 W-P 1976 LM Ht. 32cm. Perianth broad, flat and smooth. Segments shovel pointed. Cup medium length, shell pink flared and serrated at margin. Good pose, durable. **Each...\$6.00**

PIQUANT...G-31 Blarney X Artist's Model 3 W-O 1974 M Ht. 41cm. A 3B that looks like a 3B. Perianth segments are 53mm, cup length is only 15mm. Easily identified with its seed parent, Blarney, it is much larger, whiter, and the small cup is rich brick red here most seasons. Good grower. **Each...\$6.00**

PROFILE...B-110 Limerick X Broughshane 2 W-Y 1970 LM Ht. 53cm. A skyscraper of the daffodil kingdom which remains erect in most Oregon weather. Not really distinct; resembles Polindra, and opens when others of this type are past their prime. **Each...\$2.00**

PROPRIETY...B-117/1 Rose of Tralee X Interim 2 W-P 1970 M Ht. 36cm. Large for its type and of classic show form. Smooth perianth, and in favorable seasons for long cup colors a rich salmon-pink. **Each...\$2.00**
