We are pleased to present our sixth price list of daffodil bulbs. Most of the varieties listed are older varieties which should do well as garden flowers.

Stocks are very small of most varieties and should those you request not be available we will replace them with a bulb of similar quality and value. At the same time we do have many varieties that are not listed here. Ask, we could well spare one or two bulbs. A visit to our nursery will help when making your choices.

For the first time we have bulbs of our own raising for sale.

GOLDEX (81/03F) Golden Aura x Daydream. 2Y-Y Midseason.
Judging by the recent successes of flowers from this cross it must have been inspired. Not a big flower but most consistent. Resembles a golden yellow 'Daydream'.

TEDDER (77/015A) From Cotter Seed. 2W-P Midseason.
Mid length bright pink trumpet like corona. A small flower for us but extremely consistent show form. May be useful for breeding pink trumpets.

SARAH RACHEL (80/19I) 4Y-Y x Daydream. 4Y-Y Midseason.
This flower has not been registered but makes a lovely garden flower. Multiplies quickly.

HAWKINS (84/115C) Supposedly Ebony O.P. 11a W-YWY Early Midseason.
The first of a series of split coronas to be offered. Corona colour is most interesting with a distinct inner ring. A good garden flower and could be useful for shows when well grown.

The names of our flowers will usually have a double meaning. The first to tell us correctly can have a bulb for half price. For example who knows what a tedder is?

Seedlings numbered prior to 1985 are available for sale at $10 per bulb. Please inquire if you see any that you wish to purchase.

Thank you for your support. We aim to be available to assist where we can and will endeavour to be generous in our filling of your orders.
