Cyclamineus x *jonquilla*

7 (?) seed.

Cross made March 1946, using *jonquilla* brought from Williamsburg. As pollen had come up on *cyclamineus* cross was not recorded, but seed were planted as *N. cyclamineus*, and it was not until the blooms appeared that it was certain there was a cross.

1950 - 4 bulbs. 3 bloomed Apr 3/50.

2 had 2 buds on stem, only one opened second bud.

1951 - 4 bloomed. Removed from pot and planted in rose bed near tool house. 2 color slides made by WH Carnaway.

See separate pages.

C-J-3 bl. 1950, 1951, 1952

~~no bloom 1953. No foliage left May 13/53~~

~~2 minute bulbs dug July 1953 and discarded.~~

C-J-1

Fragrant,

1946

Longer trumpet than the others.

Bl. 1950.

Notes made 1953: Tallest, ca 10".

2 stems, 3 blooms on 1, 4 on 2.

Cups $\frac{1}{2}$ to $\frac{3}{8}$ in. long, per. segs $\frac{7}{8}$ "

Foliage very spreading.

1955 5 pl. sect. 5, mixed border.

57 one won blue ribbon in THE

*Mrs. Merton S. Yerger
Princess Anne, Md. 21853*

Dear Roberta - You exhibited a seedling
once FairyCircle X Minuet.

I am doing an article on F.H. Chapman
who raised Minuet and it seems I may have
to hang my tale on Minuet as there is so
little information about him as a person.
Powell used Minuet in Crosses, Wm. Jackson
regardd it very highly in crosses. It is
mention as bing in B.Y. Morrison's garden;
Daffodil Mart listed it; Mrs. Pratt used it
in a "stream" of daffodils at Little England
It is the only poet cultivar by Chapman that
we in the poet Round Robins have. Can you
tell me if it proved to be a success for you
and where you got it - also do you know any
tidbits about Chapman that do not appear in
1914 or 1933-1971 RHS Yearbooks? It is my
earnest hope, as you know, that constant
mention of poets particulalry this series
~~of articles about their raisers will revive~~
interest in the division and help the
daffodil world by saving them from extinction.
Happy New Year - fondly, *MEG YERGER*
