## **AN APOLOGY**

We apologize to our past and potential customers for not issuing our usual type of catalog. We are economizing this year, so that we may put out a much finer catalog in 1951. All of the varieties, with few exceptions, that were described in our 1949 catalog are included in this price list. The thousands of former customers who have last year's catalog will find it of great service in ordering this year. These catalogs have been exhausted, we regret to say. We are including many new and exciting varieties of great horticultural merit in this price list. They will be described in full next year, but don't miss this opportunity to get a start with them this year. You will notice that a whole new section on that fine perennial, the bearded hardy iris, has been included for the first time.

## **A PROMISE**

Our economizing this year should allow us to produce a much finer catalog in 1951 than we have ever sent out before. We are planning to use many more pictures and color printing for the first time.

## **A GUARANTEE**

We will continue to send our customers absolutely only the finest bulbs available in the world, as we have done in the past. We know that many faithful customers of past years wait for our catalog before ordering for spring planting and you may rest assured that, again this year, we will supply you only those top-notch bulbs which have produced such spectacular results in the past.
